

SURRENDER OF THE FORMER KAISER IS AGAIN DEMANDED

NEW DEMAND THAT HOHENZOL-
LEIN BE SURRENDERED FOR
TRIAL TO BE PRESENT-
ED TO DUTCH.

KAISER'S POWER IS FEARED

Alternative of Removing Former
Kaiser from European Soil Is Of-
fered—Allies Determined
to Carry Out Treaty
Terms.

By United Press Leased Wire
London.—The Allied reply to the Dutch note refusing extradition of the former kaiser will be a distinct re-
jection of the original Allied de-
mand that he be delivered to them
for trial, it was stated on good au-
thority here today.
The note, which was drafted in
Paris, was received in Downing
Street late yesterday and was sub-
mitted to Premier Lloyd George and the
cabinet for their inspection before it
is transmitted to Holland.
The outstanding features of the Al-
lied communication, according to au-
thoritative officials, is a rebuttal of
the Dutch legal arguments against
extradition. The communication, it
was said, cannot be really classed as a
reply for it is a distinct re-application
of the Allied demand for surrender
of the former emperor of Germany.
The note, it was said, contains ad-
ditional information and arguments
why extradition is desirable and even
imperative.
The second section, it was in-
timated, offers the alternative that
should Holland refuse to submit to
the demand for extradition the Allies
must make it clear they cannot con-
sent to the former kaiser's remaining
in Europe, and that Holland must
remove him to some place where it
will be impossible for him to return
to Germany.
Members of the British cabinet and
the French government, it was said,
consider restoration of the monarchy
in Germany as not at all impossible,
if the former kaiser had the "back-
bone" to carry out such a plan.
Allied leaders, it was said, consid-
er as particularly significant the Ger-
man attempt to evade delivery of war
criminals, whose surrender is de-
manded by the Allies.
There are no threats of an econ-
omic blockade against Holland, in
the note, it was said, but the com-
munication does convey the unalterable
determination of the Allies to carry
out the peace treaty to the letter.
Commenting on the Allied demand
to Germany that she surrender \$45
war criminals officials said it was the
unanimous viewpoint of Allied lead-
ers that force should be used if nec-
essary to force German compliance.
This was considered necessary for
two reasons:
First, the demand offers a real test
for Germany's intentions toward ob-
servance of the Versailles treaty. The
Allies consider it a precedent which
will determine future German atti-
tude toward terms of the peace.
Second, the demand is a warning
that it is necessary for the upholding
of future international law in war.
Therefore, the Allies have agreed that
action must be swift, drastic and un-
compromising.

\$400 LEFT IN AN ENVELOPE FOR ONE NEWBERRY WORKER

CAMPAIGNER SAYS HE USED
PART OF THE MONEY TO PAY
EXPENSES AND SENT
REST BACK.

By United Press Leased Wire
Grand Rapids, Mich.—John Kern,
Midland, Mich., found \$400 in an
envelope given him by Paul H. King,
manager of the campaign to elect Tru-
man H. Newberry to the United States
senate in 1918. He testified today at
the Michigan election fraud trial.
King said he went to Detroit and
talked with King regarding doing
some work in the interest of Newberry.
Following the conversation he
said he found an envelope for him on
the table.
"What was in the envelope?"
quipped Frank C. Dailey, government
attorney.
"Four hundred dollars," Kern said.
"What did you do with it?" Dailey
asked.
"I used \$96 for expenses and sent
the rest back," the witness replied.
Miss Pearl Gilbert, secretary to
Congressman Gilbert O. Currie, testi-
fied that King sent the following mes-
sage to Newberry the day before the
primary election:
"Don't worry, everything is all
right."
Thomas A. Whitney, formerly of
Grand Rapids, testified he was em-
ployed by George Welsh, Newberry
worker, to circulate the petitions of
James W. Helme, democratic candi-
date for the senate in 1918. He said
he received \$5 a day and expenses for
circulating the petitions.

MORE EARTHQUAKE SHOCKS FELT NEAR VERA CRUZ

By United Press Leased Wire
Mexico City.—New earthquake
shocks, in which several houses were
destroyed in the region near Mount Ori-
zaba and the town of Cordoba, in the
state of Vera Cruz, were reported to-
day.
Several hundred people were killed
by earthquake and volcanoes in this
district recently.

Kimberly To Be Enlarged By 40 Acres

Rapid Growth of Village Necessitat-
ed Expansion—Boundary
Line Moved West to In-
clude Portion of Riv-
er Bank

The rapid growth of the village of
Kimberly has made it possible to ex-
tend its limits so as to include about
forty additional acres along the riv-
er bank to the west of the present
limits and extending south to the
Appleton-Kimberly road. The tract,
which is owned by F. J. Sensenbren-
ner of Neenah, will be platted and
the bank of the river converted into
a park with a driveway winding close
to the water's edge.
The matter of extending the vil-
lage limits came up in circuit court
Wednesday and was presented to
Judge Werner by Attorney Moses
Hooper of Oshkosh. The petition
showed that on Dec. 8, 1919, the vil-
lage board duly adopted a resolution
authorizing and directing the peti-
tioners to make petition to the cir-
cuit court to alter the boundaries by
annexing the contiguous territory de-
scribed.
A survey and map of the territory
intended to be annexed and a survey
and map of the territory included
in the present village was made by
George B. McClary, a surveyor. A
census of the resident population of
both the village and adjoining terri-
tory was also taken on Dec. 10,
1919.
The petition shows that the present
village contains 398 acres and the
population of the whole terri-
tory as appears from the census taken
on Dec. 10 is 1,380. Joseph T.
Doeffler and Henry W. Langenberg,
president and clerk respectively,
caused notices to be posted to the
effect that on Feb. 2, 1920, or as
soon thereafter, petition would be
made to the circuit court for an order
to alter the boundary of that village
by annexing the territory described.
After listening to the testimony the
court granted the order with slight
modifications.

TRY TO PROVE THAT SOCIALISTS OPPOSE N. Y. CONSTITUTION

TRIAL OF SUSPENDED SOCIALISTS
IN ALBANY BRINGS FIVE
POINTS TO THE FRONT

By United Press Leased Wire
Albany, N. Y.—The judiciary com-
mittee, conducting the hearing of the
five suspended socialist assembly-
men, adjourned from yesterday to
Tuesday have emphasized in the three
week proceedings the following points
which it seeks to prove:
1.—That the New York state consti-
tution and the socialist constitution
are in direct opposition regarding ap-
propriations for war purposes. That
the former provides that money must
be appropriated to support state mil-
itary organizations while the latter
bans socialist legislators to oppose
all such measures.
2.—That the socialist assemblymen have
voted against appropriations for the
state militia and introduced bills to
abolish that body.
3.—That the majority of dues paying
members of the socialist party of
America are aliens and that some are
minors. That aliens and minors thus
might control socialist officeholders
through requiring them to sign an un-
dated resignation upon election.
4.—That all socialists are pledged to
overthrow of the existing American
government by force, if necessary.
5.—That American socialists were in
sympathy with Germany during the
war and that by their acts they gave
"aid and comfort" to Germany. That
they also are in complete accord with
the soviet government established in
Russia and seek to form such a gov-
ernment in the United States.
The "prosecution" will complete its
case Tuesday. Practically all that re-
mains for it to do, is introduce the
testimony of Ludwig C. K. Martens,
socialist representative, before the
Lusk legislative committee and L. E.
Harris, Milwaukee newspaperman. The
latter will be through a deposition.
Seymour Steadman, acting chief so-
cialist counsel has said the defense
will not require more than five days.
Oral arguments will then be made by
opposing counsel the following week.
It was understood today that Morris
Hillequit, principal socialist attorney
until compelled by illness to retire,
will be back Tuesday and will make
the final argument.

MOONSHINE SEIZED IN RAIDS IN MILWAUKEE

By United Press Leased Wire
Milwaukee.—Raids by federal of-
ficials yesterday and last night result-
ed in confiscation of three large whis-
ky stills and a large quantity of
"mountain dew."
At New Butler illicit whiskey has
been manufactured for several weeks,
reported the officials. Eleven barrels
of mash were destroyed. William
Kizman, section hand, was arrested.
A still with a capacity of 35 gallons
was taken at a grocery store here.
Joseph Gross is in custody. Thirteen
gallons of moonshine testing 105
proof, was seized at White Fish Bay.
Henry Thoran is in jail.

"MONDA ROSE" RETURNS TO FACE EMBEZZLEMENT CHARGE

By United Press Leased Wire
Chicago.—Monda Rose, alias Rose
Schweiberg, society cashier, will re-
turn to Chicago tomorrow from Win-
nipeg to face charges of embezzle-
ment, according to a telegram re-
ceived here today by Joseph Siffer-

turning voluntarily, the telegram
said.

Remedy Money Situation By Helping Europe To Its Feet

Frank A. Vanderlip, Former Head of National City Bank of
New York, Says America Must Extend Credits of
Raw Materials to Enable European Man-
ufacturers to Make Articles
for Export

(Copyright 1920, by the United Press.)
New York.—Frank A. Vanderlip, who first called attention to Eu-
rope's serious economic decline nine months ago, declared in a statement
to the United Press today that the foreign exchange situation can be
righted and Europe can be put on her feet only if the Europeans will go
back to work. But Europe can only do this, he said, if America will
supply her with food and raw materials. The former head of the famous
National City Bank of New York added that America can easily undertake
the work of rehabilitation. The first step, he said, was the most important,
though it need not be a large one.
A billion dollars will go a long way,
Mr. Vanderlip stated, in starting Eu-
rope on the way to production. But
it must be a billion dollars spent for
food and raw materials. It mustn't
be a billion dollars spent on any fi-
nancial rehabilitation.
"This is the first move necessary
to help the exchange rates recover.
The present decline in exchange tends
to halt our exports. It is conceivable
the halt might occur very sharply.
To a considerable extent, ships are
now going to Europe without full car-
goes. Last year we exported eight
billion dollars worth of goods, and the
trade balance in our favor was four
billions. In pre-war days a trade bal-
ance of \$600,000,000 for us was
about the top figure. These figures
indicate that if the halting of our
exports goes on much longer it will re-
sult in a jar that will pile up cotton, agri-
cultural products and to some extent
manufactured goods. I do not believe
such a situation would result in any
serious unemployment for us. There
might be some thrown out of work
while a process of readjustment went
on, but very little hardship would
follow. Our consuming capacity is
greatly in excess of our present con-
sumption.
"It is rather psychologically that
we should feel a continuation of the
present decline in exchange. The sit-
uation now facing us means the peo-
ple on the other side are unable to
pay for what they vitally need and
that their economic life has become
disorganized. Economic disorganiza-
tion in Europe must have an un-
favorable influence to our own affairs.
If over there political disorders oc-
curred, they would affect our thoughts
here. Just as we have a considerable
public opinion sympathetic to Russia,
so might there be a body sympathetic
to any political disorders in Europe.
An increase in radical thought in
America would be engendered by rad-
ical political movements in Europe.
The present situation is creating idleness
and hunger among the Europeans
and those are the two principal
factors in developing political unrest.
"There is no cure you can take out
of a patent medicine bottle. The
cure is for Europe to produce more
than that Europe can pay for what it
must import. But, it is hardly to the
point to insist that Europe must go
to work, and stop at that. Certainly,
Europe must work, but it must have
something to work on and raw ma-
terials to work with, and in the
meantime it must have food to sup-
port the people. Just now the people
of Austria and other central Europe-
an countries are exhausted and dying
of starvation.
"I doubt the wisdom of our gov-
ernment granting more credits to
Europe. At the same time the cred-
its that are needed must run for too
long a term to make it feasible for
banks to make the grants. Besides,
our banks have expanded their cred-
it facilities for domestic requirements
to quite as high a point as is safe.
That means the credit should come
from our investment funds, which
have been largely dissipated in the
recent past by our flotations of new
companies. We have great demands
for domestic promotions and for
such work as rehabilitating our rail-
roads, which are now in need of 600-
000 cars. Nevertheless, we can at
the same time assist Europe. We can
expand our lending ability very much
by practicing economy and stopping
the present craze for extravagance.
"But our investors are not dis-
posed to adventure into foreign sec-
urities. They can get very high re-
turns from domestic securities and
they lack understanding and experi-
ence in foreign securities. Such in-
vestments as they have made abroad
haven't been altogether happy in
some instances. The remedy can on-
ly come with a realization by our
people of Europe's extreme need; of
our own intimate connection with
European affairs and of the reaction
on us of any economic breakdown in
European countries.
"In investing our funds to help
Europe's recovery the idea would not
be for European governments to
float loans as they did during the
war. The task is one primarily for
financiers. There should be a con-
sortium of bankers, representing the
principal lending countries, that is
those which have a surplus of food
and raw materials. This council of
bankers would have to study the Eu-
ropean industrial situation and rat-
ion such credits as it could grant.
It would extend credits solely with
a view to starting industries and
keeping people from starving. The
credits should be extended only in
the form of food and raw materials.
The consortium of bankers would sell
to American investors obligations se-
cured by a mortgage or other se-
curity of the European factories get-
ting raw materials and also secured
by the government of the European
country accepting the goods from
America. This government guaran-
tee might be the form of a priori-
lity over all outstanding government
loans.
"The degree of safety of these ob-
ligations would be high if the credits
extended to Europe were on a com-
prehensive scale and left no areas
helpless. There could be no com-
plete safety for such investments,
however, as long as there were great
political districts left in want and the

Allied Demand For War Guilty Is Denounced

German Minister of Finance Asserts
That German People Will not
Permit Their Leaders to
Go on Trial Before
Allied Court

By United Press Leased Wire
London.—The Allied demand for
surrender of Germany's alleged war
guilty is an act of revenge worse
than Shylock's, Gustav Noske, min-
ister of defense in the Ebert govern-
ment, was quoted as saying in an in-
terview cable to The Daily Mail to-
day.
"Surrender of the accused Germans
is a practical impossibility," the cor-
respondent quoted Noske as assert-
ing.
"Even if the accused men were
arrested," Noske continued in the in-
terview, "crowds of Germans would
not allow their train to cross the
frontiers. I would not order them
shot by our troops."
The present German government
may possibly be forced to resign,
Noske said, but he added, "what
would replace it?"
A German wireless dispatch said
Kurt von Lersner, former head of the
German delegation in Paris, who re-
fused to transmit the Allied list of
war guilty wanted last Satur-
day to transmit the list when it was
handed to him, to the German for-
eign office.

URGES LAW TO CURB RADICAL ACTIVITIES

THOUSANDS OF REDS ARE AGI-
TATING OVERTHROW OF THE
GOVERNMENT, NEW
YORK MAN SAYS.

By United Press Leased Wire
Washington.—"Tens of thousands
of radicals of the violent type are
daily advocating overthrow of the
government and establishment of a
dictatorship such as exists in Rus-
sia," Attorney General Newton, of
New York, declared today before the
house judiciary committee in urging
passage by congress of sedition legis-
lation.
Newton attacked the left wing of
the socialist party, the I. W. W., the
Communists and other kindred or-
ganizations.
"The efforts of these violent rad-
icals are encouraged and the aims
they are pledged to accomplish are
boldly set forth and glorified by a
press equally as radical and violent
as the advocates of revolution them-
selves," he said.
Newton charged that the left wing
of the socialist party in a manifesto
published last July declared for re-
pudiation of all national debts.
"This means an advocacy of the re-
pudiation of all Liberty bonds and
other government obligations held by
patriotic citizens who loaned the
country billions in time of war. Un-
less congress and the people of the
country awaken to the dangers of
these doctrines and take steps to curb
this propaganda the problem of cop-
ing with this movement will become
more difficult as time passes."
Francis F. Kane, who resigned as
United States district attorney for
the eastern district of Pennsylvania
opposed sedition legislation.
"Considering the size of the United
States and the fact we are a nation of
100,000,000 it seems to me there
have been extremely few outrages
committed since signing of the
armistice," Kane said.
Rep. Johnson, Washington, told
the committee that a "good stiff
sedition law" is needed.

POLAND ADVISED TO MAKE PEACE WITH BOLSHEVISTS

Great Britain Gives Notice That She
Cannot Give Further Assistance
In Fight Against Russia

By United Press Leased Wire
London.—Poland has been advised
to make the best possible peace with
the bolshevik officials in the foreign
office said yesterday today.
Great Britain has informed the
Polish government, officials said, that
she cannot give further military or
financial aid to nations fighting the
Russian soviet armies.
"Refusal of the United States,
Italy and France to assist materially
in efforts to crush red forces has re-
sulted in Britain's decision to re-
sist to a masterly retreat," it was
explained.
Some observers attributed the new
British attitude to the pressure of
British labor, and the economic sit-
uation, rather than failure of the
other Allies in assisting the anti-
bolshevik forces.
The press, noted has stopped its
anti-bolshevik campaign. Lloyd
George said, in new tack is on-
ly clinging to the political axiom—
"If you can't beat 'em, join 'em."

FOES OF TREATY MAY TALK IT TO DEATH IN SENATE

IRRECONCILABLES EXPECTED TO
USE FILIBUSTER WEAPON
TO PREVENT ITS
CONSIDERATION

LODGE PLANS ARE SECRET

Republican Leaders Believe Viscount
Grey's Letter Has Strengthened
Their Position—Big Battle
Opens on Monday

By L. C. Martin
By United Press Leased Wire
Washington.—Republican "bitter
enders" in the senate will meet to-
morrow to decide how best to launch
the attack they hope will again pre-
vent ratification of the peace treaty.
Senators favoring flat rejection are
hampered by the fact that they
cannot learn the plans of Senator
Lodge, leader in the fight for ratifi-
cation with strong reservations.
Ten of them met yesterday in an ef-
fort to determine their course when
the treaty is called up Monday but
were unable to agree.
Lodge expects irreconcilables will
attempt a filibuster Monday when
he moves to suspend the rules and
proceed to consideration of the
treaty. Under the rules they can
talk endlessly on this motion. Some
of the irreconcilables urged that an
ultimatum be served on Lodge,
threatening to tie up the treaty in-
definitely unless he agreed that no
effort would be made to limit debate
on the treaty itself.
Viscount Grey's letter has appar-
ently stiffened the resolution of the
"bitter enders" never to let the treaty
be ratified if there is any way to pre-
vent it. For that matter, the Grey
letter has evidently strengthened the
determination of every faction in the
senate to fight.
Democratic leaders who resent
Grey's action declared today it has
banished from their minds any thought
of yielding to the Lodge program.
Lodge's group claims to find in
Grey's letter endorsement of their
date toward carrying out the decision
of the old supreme council to open
up trade with the Russian coopera-
tive societies. Finally the economic
council discussed creation of an
economic section of the league of na-
tions.

FOUR KILLED AND DOZEN HURT IN RACE RIOTING

By United Press Leased Wire
Pine Bluff, Ark.—Pine Bluff was
quiet today following a night of
rioting in which four persons were killed
and nearly a dozen injured.

HINES REVISES "FINAL WORD" TO RAIL WORKERS

By United Press Leased Wire
Washington.—Rail Director Hines'
"final word" to the railroad union's
wage demands is being revised, and
probably will be submitted to the
workers' representatives late today.
Its revision was undertaken when
the union representatives indicated
it was unsatisfactory. The original
plan provided for wage boards to
hear arguments. The rail unions
want the wage matter settled at once,
and many of their representatives say
they are confident they will get the
increase demanded.
Union leaders were expected to con-
clude today an exhaustive study of a
mass of figures dealing with living
costs to be used in negotiating with
Hines.

WILL HEAR SIMS ON THE NAVAL MEDAL SQUABBLE

By United Press Leased Wire
Washington.—Hear Admiral Wil-
liam S. Sims will be given a chance
to clear himself of the charge that he
is a "land admiral" made by Secre-
tary Daniels, testifying before the
senate naval affairs sub-committee
regarding award of decorations.
Chairman Hale said today it was
planned to give Sims an opportunity
to answer Daniels who declared be-
fore the committee that Sims "insulted
the navy" when he said its morale
was "shot to pieces" over the medals
controversy.
Daniels will be cross examined by
the committee and Sims will be re-
called to the stand probably early
next week.

Impossible To Resume Trade With Russians

Council of Ambassadors Decides That
Soviet Control of Co-operative
Societies Puts Trade Rela-
tions out of Question

By Henry Wood
By United Press Leased Wire
Paris.—The council of ambassadors
has decided that resumption of trade
with soviet Russia, through her co-
operative societies, now practically is
impossible because of the soviet gov-
ernment's control of the cooperatives,
it was learned today.
The question came up at the coun-
cil's meeting today when the signing
of peace between Estonia and the
Russian soviet government was dis-
cussed.
The Allied decision to resume Rus-
sian trade was announced by the old
supreme council several weeks ago
but no definite steps were taken.
The council meeting today did not
take any action on Germany's atti-
tude in protesting against delivery of
war guilty. It awaited the arrival of
Lord Birkenhead, British lord chan-
cellor and Sir Gordon Hewart, who
were delayed enroute from London.
Hugh Wallace, the American am-
bassador, having reminded the coun-
cil that article 371 of the peace treaty
(outlining provisions by which cer-
tain German railway lines are to be
turned over to the Allies) provides
for an American member on the
commission, it was decided to appoint
a substitute to act for the United
States until she ratifies the Versailles
treaty.
Although General Bandsolz of the
American army and Chief of the Al-
lied military mission in Budapest, is
returning to Paris, the council decid-
ed that the Allied mission will be con-
tinued.
The council of ambassadors also
ordered convocation of the Elbe and
Oder river commissions as provided
in the peace treaty. It decided the
treaty giving Spitzbergen to Norway,
will be signed in the clock room of
the French foreign office Feb. 9 at
4:30 p. m.

COAL SHORTAGE ADDS TO MISERY OF NEW YORKERS

ONLY TWO DAY SUPPLY OF COAL
IN CITY WHILE BLIZZARD
TIES UP TRANSPORTA-
TION LINES.

By United Press Leased Wire
The Atlantic coast from New
England to Virginia was being
swept today by the severest gale of
the winter, accompanied by
heavy rains and snows.
New York and Boston were
cut off from many of their sub-
urbs through failure of trans-
portation. New York's surface
and elevated car lines were al-
most paralyzed. Street car
traffic was demoralized. In ad-
dition, New York was threaten-
ed with a serious coal short-
age unless ways are found to
move a normal supply into the
city.
Ships at sea were buffeted by
the gale and constant requests
by wireless from vessels seek-
ing their compass points were
received by shore stations.
The Old Dominion liner Prince-
cess Anne was driven ashore on
Long Island during the night.
She wirelessed that her 104
passengers and crew were in no
immediate danger, but asked
that tugs be sent to remove the
passengers.
High tides along the coast in-
creased the menace from the
heavy seas rolled up by the
winds. The Jersey coast and
seaside resorts around New
York suffered property damage
from wind and waves estimated
at more than \$1,000,000.
The weather bureau predict-
ed more snow for the eastern
coast tonight, with little likeli-
hood that the storm will abate
before Saturday night.
The railroad administration is
diverting large supplies of coal
to meet the threatened short-
ages in the storm swept states.
It became known at Washington
this afternoon, should the sit-
uation become more serious it
was indicated that curtailment
of passenger traffic and freight
embargoes are possible.
New York—Greater New York
was bending every effort today to
fight the snowstorm that has held
the city in its grip for two days and
to dispel the threats of a coal short-
age that might prevent operation of
transportation systems and other pub-
lic utilities.
Surface street car lines were op-
erating today at about twenty per-
cent of normal. Elevated lines were
handicapped. Thousands of New
York workers were stranded in sub-
urbs unable to get to work on time.
Street traffic was slow and uncertain
on account of accumulated snow.
New York's normal inflow of coal
was stopped to a great degree by
snow bound "dumps" at terminals in
New Jersey. Informed that the sub-
way systems were threatened with
necessity of discontinuing service un-
less more coal is received, Public
Service Commissioner Nixon was called
to the fore to make arrangements for
diverting for other use coal consigned
to New York. President Hedy of
the Interborough subway reported
that he expects to receive sufficient
coal to prevent suspension of service.
No snow fell here this morning,
but the weather bureau predicted
more snow or rain tonight. A strong
northwest wind continued today
hampering water traffic. Unusually
high tides continued, causing some
damage.
Washington—Wholesale diversion
of coal shipments to meet a threaten-
ed fuel shortage as a result of snow
and blizzards over the eastern states
was being carried out by the railroad
administration today.
The situation has grown so serious
that it is not improbable curtailment
of passenger service and freight
embargoes may be put into effect
should present conditions continue.

G. O. P. CONGRESS IS CALLED FAILURE BY DEMOCRATIC LEADER

CHAIRMAN CUMMINGS SAYS PEOP-
LE ARE PAYING BIG
PRICE FOR ELECTING
REPUBLICANS

By United Press Leased Wire
New York.—Picture of a rank fail-
ure, as painted by Homer S. Cum-
mings—the republican congress. At
a dinner in his honor here last night,
the democratic chairman asserted the
American people have paid "and
still are paying a staggering price
for electing this republican con-
gress." Congress's every attempt to
settle post war industrial, finan-
cial and social problems has met
failure, Cummings charged.
Scoring the republicans for fail-
ure to complete the peace treaty
Cummings said:
"To present a picture of America
reluctant to fulfill its legitimate ob-
ligations; anxious to secure the ad-
vantages of a league of nations with-
out accepting its responsibility."
Cummings said men who criticized
the president for taking six months
to write the peace treaty have taken
eight months for sterile debate over
it. With a democratic congress the
treaty would have been ratified long
ago, putting America in the van of
nations, he claimed.
Secretary Daniels was a speaker.
He said the president credit for see-
ing the necessity of bottling the Ger-
man submarine, long before naval
staffs on either side of the water
moved to that end.
A declaration by Governor Ed-
wards of New Jersey that he pro-
posed to carry the "issue of state
rights and personal liberty" to the
whole nation was applauded.

18 YEAR OLD COUNTRY BOY HAS CRIME RECORD

By United Press Leased Wire
Milwaukee.—Joseph Ewaskowicz,
18, "only a country boy," put it all
over the "city fellows" here. Joseph
told his story in court. He said he
came from Bruce, Wis., in a stolen
automobile, and after arriving here,
stole five more machines, committed
two burglaries and then turned to
petit larceny, theft of a traveling
bag. The latest feat resulted in his
apprehension. On one occasion he
satisfied a \$70 board bill by the
gift of a stolen automobile. The
boy's father pleaded for him and the
court made it a year in reform
school.

ALLIED EXCHANGE SHOWS MORE STRENGTH TODAY

By United Press Leased Wire
New York.—Allied exchange which
slumped in value badly in the last
few days, developed strength at the
opening of the money market today
and recovered rapidly. The British
pound sterling opened at \$3.34, an
advance of five cents from the pre-
vious close, and then rose five cents
more to \$3.39, representing a jump
of 20 cents from the low it reached
on Wednesday.
French francs were quoted at

tinued weak at \$0.105.

19,000 U. S. TROOPS IN SERVICE OVERSEAS

By United Press Leased Wire
Washington.—Nineteen thousand
United States troops are still overseas.
6,000 in Siberia and 13,000 in Europe.
Secretary Baker told the house for-
eign affairs committee today.
He denied that American troops are
being beset by Kolchak's forces in
Vladivostok and vicinity and are be-
ing interfered with in their patrol of
the trans-Siberian railway.

INCOME ASSESSOR TELLS HOW TO FILL OUT TAX REPORTS

INSTRUCTIONS FOR MAKING RETURNS ARE INCLUDED WITH
BLANKS SENT TO THE
TAXPAYERS

A. C. Rule, assessor of incomes, is enclosing in each income blank which he is mailing out a circular of information for filling out state income tax blanks. Among other things it says: Each person who has taxable income should see that his or her blank is filled and filed whether a blank has been received or not. The duty to report taxable income rests upon the person having taxable income. Penalties for not reporting taxable incomes which are later discovered consist of fine and imprisonment.

Under the Wisconsin state law, exemptions are \$800 for a single person, \$1200 for husband and wife, and \$200 for each child under 18 years of age. Do not confuse the \$800 exemption with the \$1000 under the federal law, nor the \$1200 with the \$2000 under the federal law.

Each person who receives a state income tax blank should fill out same and file it with the assessor of incomes, whether that person has taxable income or not. It may be that rents, interest, etc., are being taxed.

People who have no taxable income (which is less than \$800 for a single person, \$1200 for husband and wife and \$200 additional for each child under 18 years of age), and who receive no blank need not report. All people with taxable incomes, whether or not they receive a blank, and all people who do receive blanks should report.

Every question in the blank must be answered. Where no amount is to be written, write the word, "none." The report must be signed by the maker and two witnesses.

All dividends which are received must be listed and names of company from which received.

List all interest paid or received and names and address of persons to whom paid or from whom received. If necessary, attach separate sheet showing interest and dividends.

Read instructions at bottom of page 1 of blank carefully. Blanks must be returned on or before March 1, 1920.

If wife has a separate income it should be shown in the report of the husband.

All interest paid or received, must be listed. Board, room, house rent, hotel expenses, etc., received in lieu of or in addition to wages and salaries are income and should be stated in the blank. Fill all blanks in ink.

Interest on bonds, including state, county and municipal bonds and excepting only interest on United States bonds is taxable as income.

Dear Grace:—I knew you did not have a good time at the Dance last evening. Just a hint—Hollister's Rocky Mountain Tea is the best ever for bad breath, sallow color, no pep, pimply face, bad disposition. Voigt's Drug Store. adv.

BUSY WEEK PLANNED FOR THE BOY SCOUTS

PROGRAM OPENS SUNDAY EVENING WITH "OATH" CEREMONY IN FRONT OF PUBLIC LIBRARY.

National Boy Scout week, Feb. 8 to 15, will be fittingly observed in Appleton by the five local Boy Scout troops. The week marks the tenth anniversary of the organization of the movement in the United States.

A meeting of the 120 Appleton scouts to repeat the scout oath will be held at eight o'clock Sunday night in front of the public library. The same ceremony will be held throughout the country at the same time.

W. L. Davidson, Milwaukee scout executive, will address the Rotary club on the scout movement at the Y. M. C. A. Monday noon. An exhibition will be given by the boys of Troops 1 and 2 under the direction of Leigh Hooley, scout-master.

Friday night the scouts of Troop 2 will give a demonstration at First Ward school. Activities are planned for each day of National scout week, although the complete program has not been decided upon.

Donald Dyer, Lancaster, a member of the junior class at Lawrence college, has been appointed athletic director for the Scouts, it was announced today.

A practical athletic program is now being arranged by the new director. Various athletic games and contests will be staged.

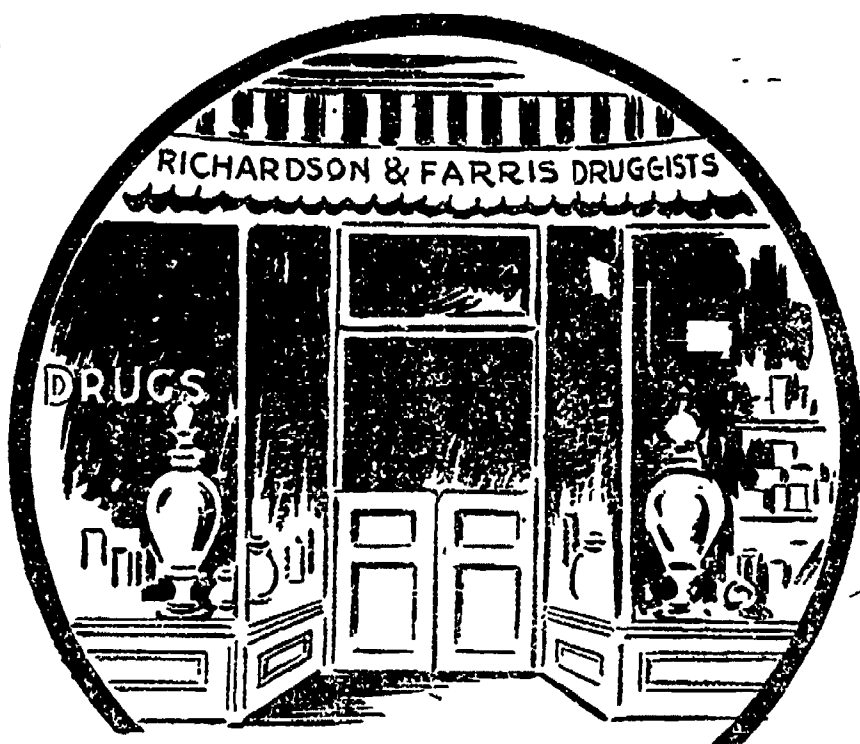

VISITING NURSE KEPT BUSY DURING JANUARY

January was a busy month for the city nurse, Mrs. Ethel Kemmer, according to her report filed with the common council at its last meeting. During the first fifteen days of the month, a number of families suffering from different diseases were cared for, 83 calls being recorded in all. All of the latter half of the month was spent at the isolation hospital, where several small pox cases occupied her attention.

Flogging is still a common punishment for minor crimes in British South Africa.

Where Vicks Began

The Drug Store in which O. Henry Spent His Boyhood

This is the drug store in Greensboro, N. C., purchased by Mr. Lunsford Richardson in 1888 from Dr. Porter. Dr. Porter was the uncle of "Will" Porter, who, under the nom-de-plume of O. Henry, became America's greatest short story writer. O. Henry practically grew up in this store and learned here the profession of pharmacy.

It was during his years behind the prescription counter of this drug store that Mr. Richardson worked out the formula for Vicks.

Directions for the Use of Vicks

VICK'S VapoRub comes in salve form. When applied to the body its action is two-fold.

1st.—INTERNAL. The heat of the body releases the ingredients in the form of vapors. These vapors are inhaled with each breath, carrying the medication through the air passages to the lungs.

2nd.—EXTERNAL. In addition, Vicks is absorbed thru and stimulates the skin, attracting the blood to the surface and aiding the vapors inhaled to relieve the congestion.

For Deep Chest Colds, Sore Throat, Bronchitis, Coughs, Hoarseness

For severe cases, hot, wet towels should be applied over the throat and chest to open the pores of the skin. Then Vicks should be rubbed well in, spread on thickly and covered with two thicknesses of hot, flannel cloths. The clothing should be left loose around the neck and the bed clothes arranged in the form of a funnel, so that the vapors arising may be freely inhaled.

For Head Colds, Asthma, Catarrh, Hay Fever, Whooping Cough

For these troubles, Vicks can be used as for chest colds or can be inhaled in a

spoon and the vapors inhaled, or a little applied up the nostrils and snuffed back into the air passages.

For Spasmodic Croup and Children's Colds

Vicks is particularly recommended for children's colds, since it is externally applied and can, therefore, be used often and freely with perfect safety. For spasmodic croup, rub Vicks over the throat and chest until the difficult breathing is relieved; then spread on thickly and cover with a hot flannel cloth. An application at bedtime usually prevents a night attack of croup.

For Use as a Liniment, Poultice or Plaster

On account of its penetrative and rubefacient effect on the skin, Vicks has been found excellent for many minor ailments, such as Bites, Boils, Burns, Bruises, Cuts, Frost bite, Itchings, Muscular Soreness, Poison oak, Sunburn, Headache.

Vicks Is Not Meant to Replace the Physician

At the first symptoms of a serious illness, such as pneumonia, a physician should always be called. Many other troubles, such as chronic catarrh or continued headache, call for the diagnosis of a good doctor. Vicks is simply an emergency remedy, which can be kept

Druggists have stock today but a shortage may come at any time. Last winter druggists in many sections were out of Vicks for months

How the Use of this External Treatment for Cold Troubles Has Grown

MORE than a score of years ago, Lunsford Richardson, a druggist in a little North Carolina town, was trying to find a new way to treat spasmodic croup and colds. He had been trying to find it for years—he needed such a treatment in his own home—he knew that epicac and internal medicines disturbed the delicate digestions of children—that the only way to get medication directly to the air passages and lungs was in vapor form. So he was searching for an effective vapor treatment which would be economical, convenient, and which could be used without the necessity of closing up the sick room and thus excluding the fresh air, so important in the treatment of colds.

At last, this druggist found a process by which he could combine in salve form the standard, time-tested remedies—Camphor, Menthol, Eucalyptus, Thymol and Turpentine—with other volatile oils so that when this salve was spread over the throat and chest the ingredients would be vaporized by the body heat. These vapors, inhaled with each breath all night long, carried the medication directly to the parts affected and at the same time the

salve was absorbed thru and stimulated the skin, aiding the vapors inhaled to relieve the congestion. This product was named Vick's VapoRub.

Now over 17 Million Jars are used yearly

Vicks was found to be good for a great many troubles besides spasmodic croup, and as time went on, its sale increased county by county and state by state, until now over 17 million jars are used each year—almost one jar for every family in the United States. And this in spite of the fact that Vicks is still a new form of treatment to many people in the North and far West.

The best testimony to the value of Vicks is the increasing number of families who, each year, are converted to the use of this real "Little Bodyguard in the Home."

Here is the record of the number of jars used annually for the last few years:

1910	347,748 Jars
1911	523,152 Jars
1912	1,027,068 Jars
1913	1,357,590 Jars
1914	1,462,330 Jars
1915	2,418,213 Jars
1916	4,302,764 Jars
1917	6,799,511 Jars
1918	17,377,408 Jars

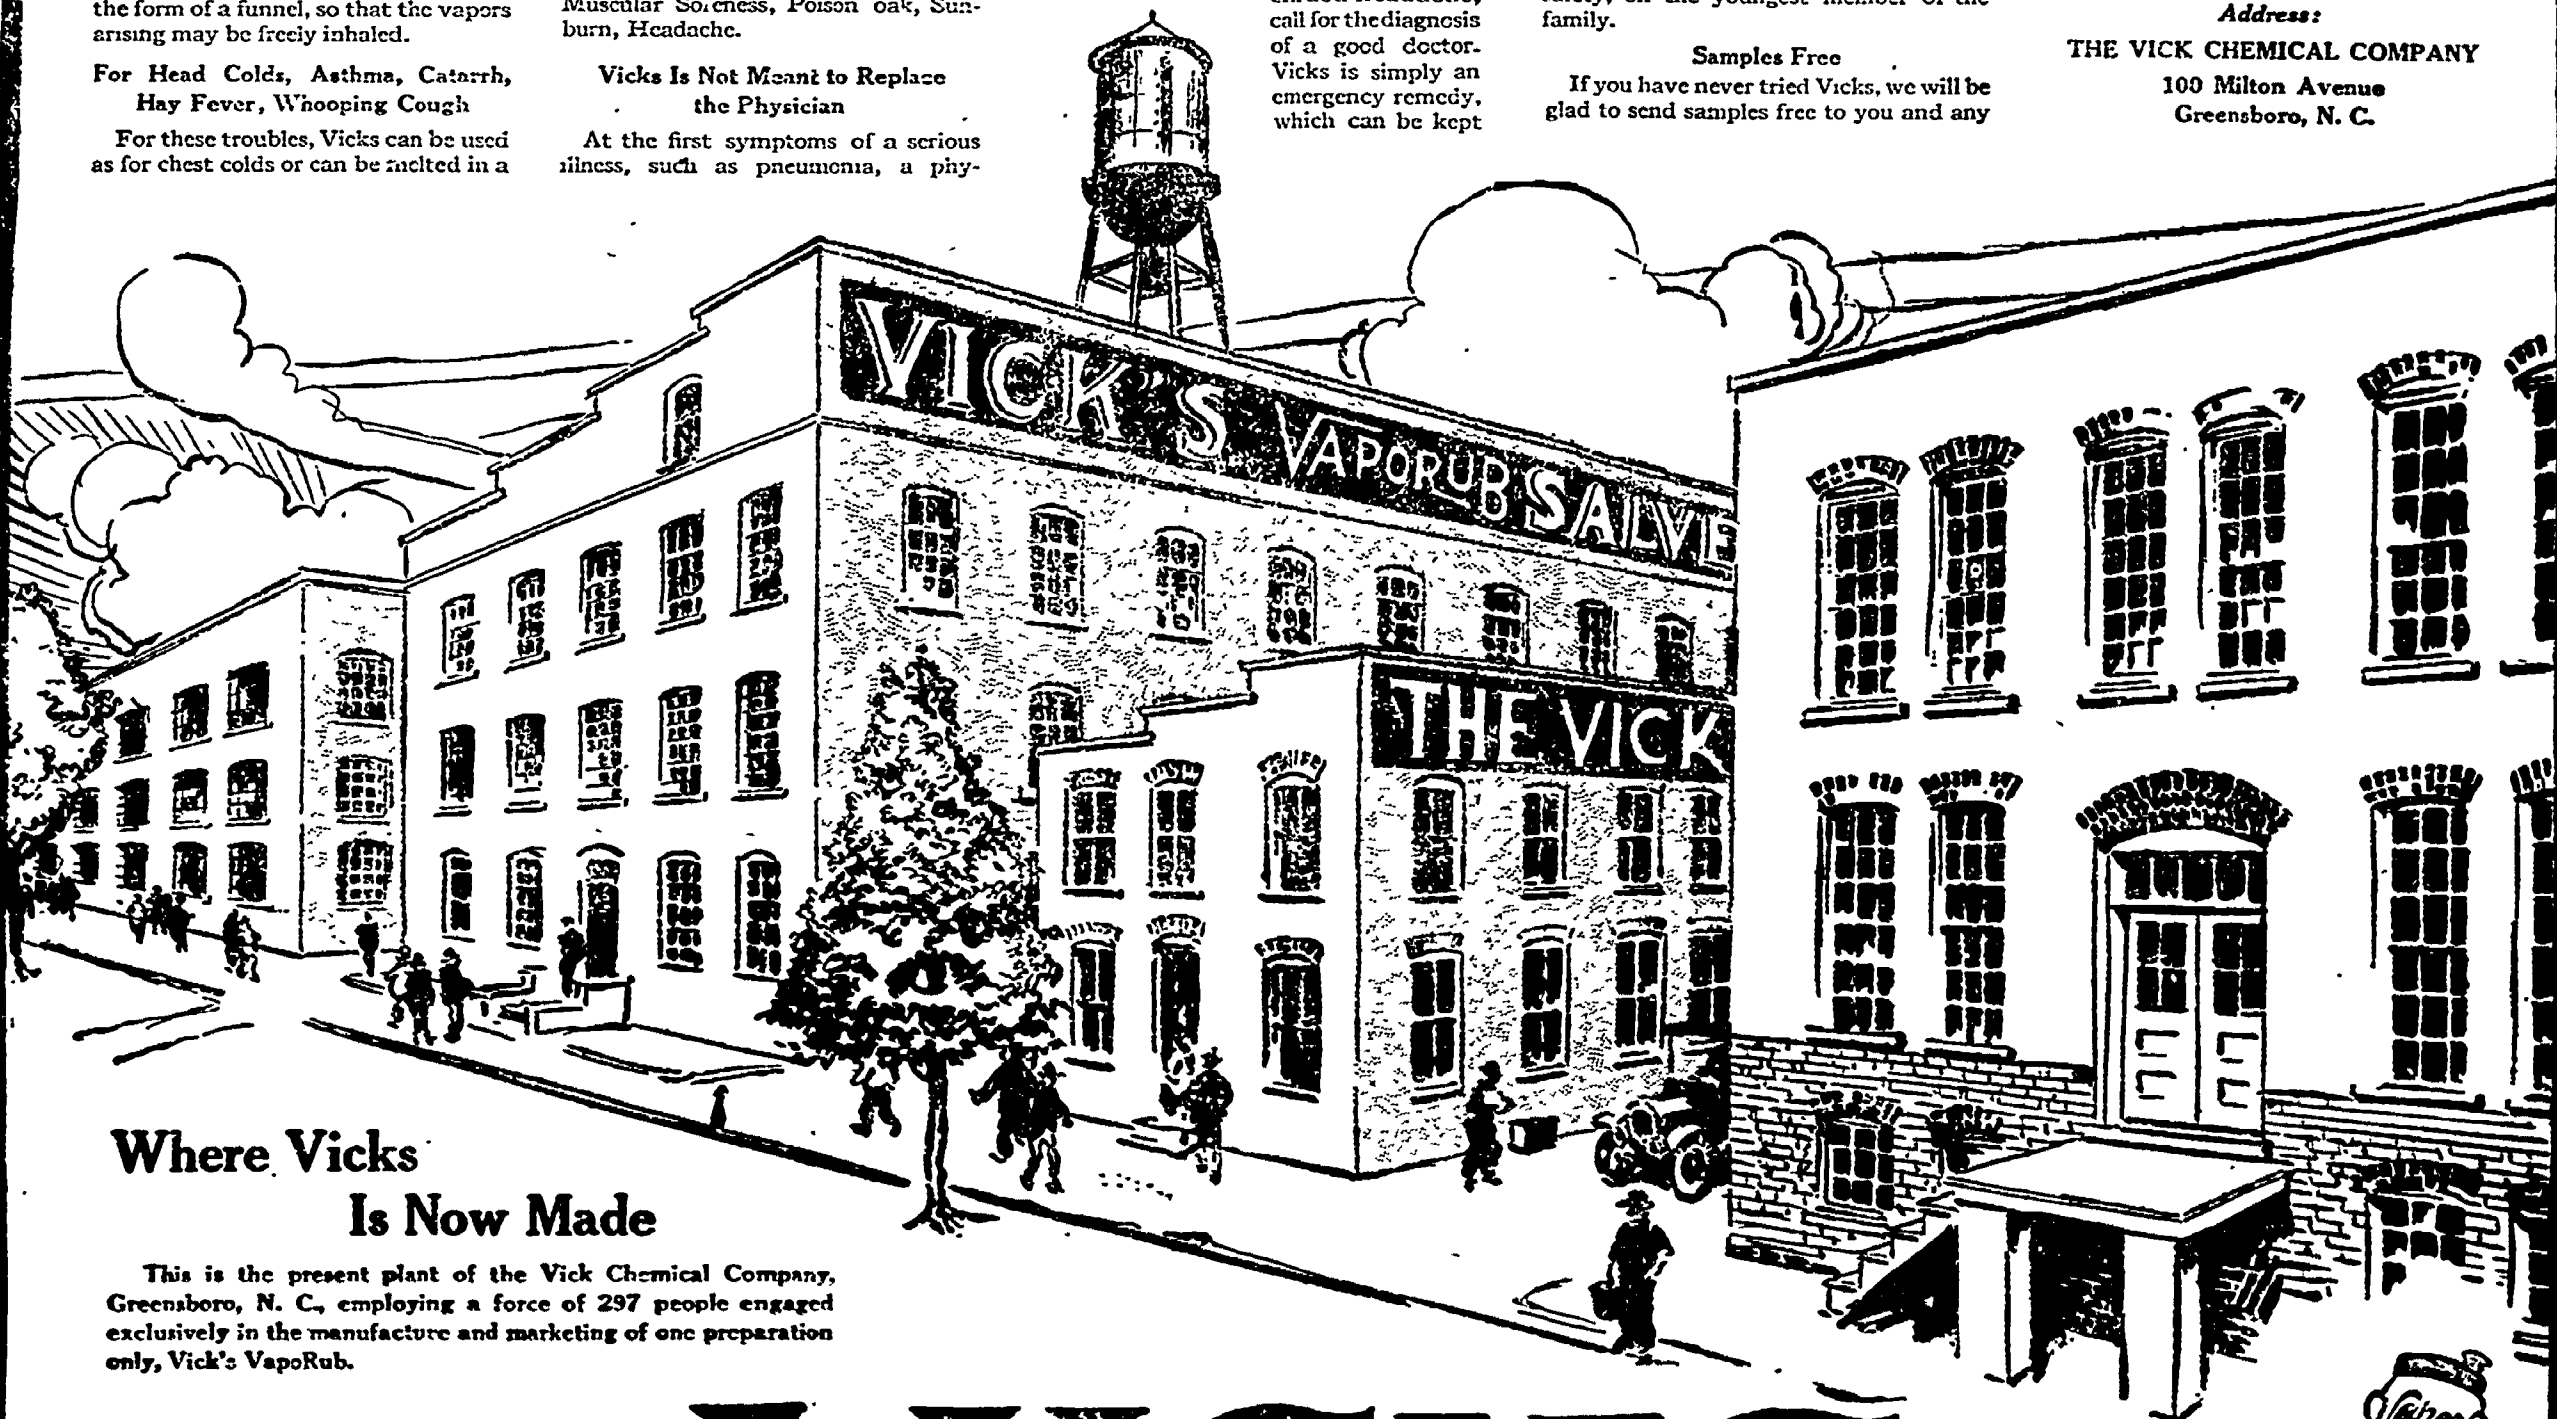

in the home ready for instant use and which can be used freely, with perfect safety, on the youngest member of the family.

Samples Free

If you have never tried Vicks, we will be glad to send samples free to you and any

of your friends whose names and addresses you will send us.

OUR MORAL RESPONSIBILITY.

It is clear that the letter of Viscount Grey, British ambassador to the United States, is having a substantial effect on the United States senate, regardless of how it may be viewed by the country at large. It is held, and not unreasonably, that his statement touching the position of America and its relation to Europe, affords an opening for President Wilson to accept reservations to the league of nations covenant. It cannot be construed, however, as an unqualified indorsement by even Viscount Grey personally, and much less by European opinion, of the Lodge reservations.

Viscount Grey dwelt upon the historic aversion of the American people to entangling alliances abroad, and in this he sensed correctly a psychological fact, but we are hardly to infer from this that America is not prepared, under the changed world conditions brought about by the great war and the issues for which she fought shoulder to shoulder with France and Great Britain, to assume common international responsibilities for the preservation of peace and the prevention of further catastrophes like that inflicted upon mankind by the German autocracy.

Our exclusion of the Monroe doctrine from the jurisdiction of the league of nations is consistent and proper, as is our insistence that policies and acts purely domestic shall be left exclusively to our own control. There are other phases of the controversy in which American interests may be more definitely safeguarded to satisfy the skeptical and the apprehensive. But neither Viscount Grey's letter nor the radical opposition to the treaty and the league constitute a sufficient reason for the failure or refusal of the United States to throw its influence and its power into the scales for the maintenance of peace, not to use that power when necessary, subject to constitutional limitations which include the control of congress over war and other measures which might conceivably be resorted to under the league covenant. If Great Britain wishes to surrender the representation of her colonies in the assembly, or to increase the vote of the United States in that perfunctory body, well and good. Perhaps the vote of the United States ought to be increased as a strict matter of principle, but so far as practical effect goes, the question is of minor importance. The senate would be wholly unjustified in withholding ratification on that ground alone.

If the United States enters the league of nations on any basis it involves a literal digression from its non-entanglement policy. So far as effects go, it is more a plausible than an actual departure, for we are not entangling ourselves in the sense that Washington had in mind. Rather, we are associating ourselves with the free and independent nations of the world to make democracy safe, to put an end to war and to enforce international peace. This is a radically different proposal than anything Washington submitted or that the country interpreted in the conception and continuance of our policy of exclusiveness. The whole question is, what is our moral responsibility before the world? We can afford to do nothing less than that required of us to attain the great objects set forth in the league covenant.

INCREASE PAY OF TEACHERS.

The action of the school board in granting the teachers of the high school an increase of \$100 per year is commendable. It is a recognition not only of the needs of the teachers, but of the necessities of public education. It is axiomatic that our teachers deserve increased salaries or no salaries at all. In other words, they are worth more than we are paying them for the services they render, or they are not worth any remuneration. We have no idea as to what extent, if any, inadequate salaries have introduced into the teaching staff members not so well equipped as they ought to be. That is a matter which only painstaking investigation would disclose. Whether it has or has not, steps must be taken to make the

teaching profession attractive to capable instructors.

The increase granted in high school salaries should unquestionably be accompanied by an increase in the grade schools. We must have well paid teachers from the kindergarten up. Competency in every step of educational training is an indispensable requirement, and we shall not secure it unless we pay teachers something relatively near what their services are worth. The public schools of Appleton must be kept on a high plane. Their usefulness must not be impaired or undermined. A liberal policy in respect to salary cannot fail to have the approval of the people, who realize that the schools are the chief asset in our civic and material development.

THE COMPROMISE RAILROAD BILL.

Indications are that we shall have an early disposition of the railroad bill, and that legislation restoring the railways to their owners on March 1st will be enacted in time to make the transition. The deadlock over the Cummins and Esch measures in the senate and the house has been broken by eliminating the anti-strike provision of the senate bill and modifying its rate-making section. In the place of the anti-strike clause, the joint conference agreed to substitute what amounts to compulsory arbitration of wage disputes. This is to be done by the setting up of boards to be composed equally of employers and employees. All disagreements over wages or labor must first be referred to one of these boards before a strike can be called. The findings of the boards are not compulsory, and the government is not represented on them. Provision, however, is made for a setting up of a federal board appointed by the president, to which appeal may be made from the decision of the lower board, and to which disagreements of the board must be referred for final disposition.

We believe this is a sensible and fair settlement of the labor phase of the legislation. It was evident that the country would not support an anti-strike bill which bore the essence of involuntary services. The compromise arrangement contains the basis of compulsory arbitration, and yet it is not arbitrary in its application. The men are represented equally with their employers on the boards, they have the right of appeal to a higher and disinterested body, and in the last analysis they have the right to strike. The machinery created has the very desirable effect of preventing strikes without ample opportunity being afforded for adjustment of the controversy. There is little doubt that the findings of the federal board, whenever recourse must be had to that body, will have the moral effect of a binding decision. They will not only prevent sudden appeals to force, with resulting demoralization of transportation and its disastrous consequences, but they will, if the plan is ethically administered, practically put an end to railway labor disturbances and strikes. If honest and conscientious consideration is given impartially to both the railroads and their employees, and the personnel of the federal board commands public confidence, labor will have nothing to fear, and neither will the railroads. It will be a square deal all around.

The compromise bill guarantees a net return of 5 1/2 per cent for a limited period, probably two years, which means that the plan of guaranteeing earnings is to be experimental. Provision is made for the use of income above this in the improvement of terminals, expansion of equipment and betterments, and for the construction of rolling stock to be leased to the weaker roads on a rental basis. We think the country is well aware of the fact that the change from government to private operation can be made only by these protective guarantees. Without them we should almost instantly have a paralyzed and largely bankrupt transportation system. A two-year test of what may be regarded as a tentative solution of the railroad problem will give congress and the country opportunity to study its effects, and at the end of that time to deal more intelligently and constructively with railway properties, duly considering public interests, in the determination of a permanent national policy. There can be no objection either in principle or in fact to giving the Interstate Commerce commission authority to fix rates which will scientifically produce the financial results contemplated by the act.

The Jugo-Slavs had self-determination. They had the choice between taking what was offered them and taking what Willard got.

Paris whispers that the wasp-waist is coming back. Doubtless Paris will sting the buyers as usual.

Confessions of a Bride

(Copyright, 1920, by The Newspaper Enterprise Association.)

I was Too Happy to Doubt the Reality of

Bob's Love For Me.

I intended never to be jealous of Katherine Miller again. I did not go off to sleep as I was supposed to do but I kept very still and watched my husband while he slept. Bob had been awake in that awful dungeon, brooding, raging and despairing, for two days and nights. When I remembered this, I stopped my silly chattering and Bob fell into slumber like that of a tired infant. I stopped talking, but I was too excited to stop thinking.

I intended never to be jealous of any woman again. I had learned my lesson. I proposed to walk serenely all my days with perfect faith in Bob's loyalty and devotion.

I was so terribly happy to be at one with my husband again that it seemed utterly absurd to imagine that I would ever question the exclusiveness of his love for me. Love like ours must be reciprocal—it couldn't last as a one-sided relation, I told myself.

I suppose all proper wives fall into the same train of mind—at intervals—and become completely trusting, after the reconciliations which follow differences or quarrels with their husbands.

I felt awfully humble as I considered how much Bob loved me. I was abjectly grateful to him for caring for such a silly, rash unreasonable creature as I knew myself to be. I vowed to myself that I would trust Bob's silences as well as his demonstration of affection forever and forever.

"It is by his silences," I told myself, "that a husband makes a wife most jealous. The questions he ignores, the confessions he will not make, the accusations he will not deny, these drive a wife into hysteria. On the other hand, a woman maddens a man by talking. She elaborates upon her flirtations and her temptations believing that the jealousy which she arouses is a proof of a man's love!"

Bob was a silent man by nature and I warned myself that I would better not construe his silences as a cover for what he dared not tell me. I would accept them as evidence that he had no hidden romances to tell about!

And then I wondered how much, or how little I ought to tell Bob about the long days I had passed locked up in that secret chamber with Chrys and Spence and Archer. There was nothing to tell except that we had all been nearly bored to death—all but Jordan Spence, who had fallen in love with my sister-in-law.

Yet, if I discussed my personal experiences and feelings—or dwelt at all upon the chivalry of Spence and Archer, I was afraid that I might suggest a line of thought which would make my husband most unhappy. The ordinary kindnesses and sympathy and consideration with which the two men had encouraged us two women in our strange situation (we four had lived like castaways on a reef in mid-ocean) the unavoidable intimacies of our life in that prison—would make Bob impatient if not furious. I decided to postpone that chapter of my story until we were back at home once more.

Reviewing my prudence, thus, I felt decidedly sorry for all of the brides of today. Our mothers and our grandmothers had had a much easier time, I felt sure. They were not sophisticated, as are most young women today. Their innocence and their loyalty were accepted by their husbands as a matter of course.

They were fortunate because, like Caesar's wife, they were held above suspicion by their husbands.

Nowadays the most popular plays and novels and movie plots deal with the love affairs of persons who are married. I am sure that women today are as honorable as they ever were, but it is the trend of modern romance to lead them into temptation. Thus very nice husbands acquire horrid suspicions. Probably Bob would—

The ominous persistent clatter of automatics—a curious "zipzipzipzip"—of machine guns interrupted my train of thought.

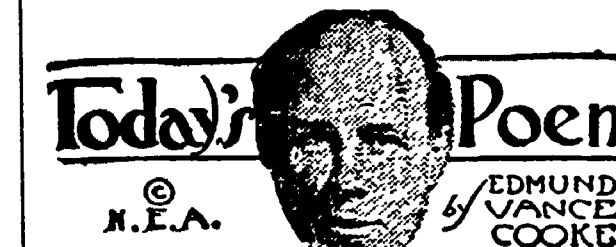

(To Be Continued)

Of the two military leaders, each is acknowledged as having enough of a following to raise the banner of revolution should either decide to fight for the election after the votes are counted. Bonillas is not likely to contest the election as he has little following among those outside the government.

The average well-informed Mexican here believes the election of July will be a final showdown as to whether Mexico is stable or not. If the candidates refuse to abide by the decision of the ballot box, there are not a few who believe the United States will step in, in case of another revolution.

There is no ground for the belief prevalent along the Texas border that Carranza is plotting to retain his office in spite of the outcome of the elections. This rumor has been denied by Premier Aguirre Berlanga, probably closest to Carranza of any of his advisers.

The Mexico City Mint, the only one in the republic, is unable to coin money fast enough for the needs of the people.

Today's Poem

N.I.A. EDMUND VANCE COOKE

"SUFFER LITTLE CHILDREN"

(There are five million children in middle Europe on the edge of starvation.)

"Suffer the little children," the Gentle Prophet said.

And now the suffering children cry daily for their bread.

"Suffer the little children."

The sinless little children.

And shall we let them suffer, by sufferance, instead?

And whose these piteous children, who stand there line on line.

With wearied lips which do not smile and eyes which do not shine?

"Suffer the little children."

The little, piteous children.

The children of a stricken world, but also yours and mine?

Across the world they call us, by all we hold most dear.

By every baby's laughter, by every mother's tear.

"Suffer the little children."

The calling, crying children.

And who shall turn his head away and say he does not hear?

"Suffer the little children," the Gentle Prophet saith.

And now five million children sob out their bitter breath.

"Suffer the little children."

The sighing, dying children.

And shall we let them suffer by sufferance to death?

TWENTY-FIVE YEARS AGO

Friday, Feb. 8, 1895.

Sheriff Baake was in Hortonville. The Minerva Club met with Miss Helen Holbrook, and continued the reading of Scott.

Ben Hooper of Oshkosh, was to sing at the Congregational church Sunday.

On account of the weather the morning mail train was punctuated from one to three hours late each day. Also it was very difficult to keep the school house warm.

Announcement was made of the prospective marriage Feb. 19 of Miss Mattie Fisher to W. H. Miner. They were to reside in Menasha.

The Appleton Track & Driving Club had ordered two flagstaffs about 80 feet high for the new fair grounds.

The Appleton Machine Co. shipped a two-cylinder wet machine to the Pioneer Pulp Co., of Grand Rapids, which was to be used for making pulp board to take the place of wood in making packing containers, etc., and was expected to work a revolution in the use of materials for this purpose.

A horse driven by Jos. Stier ran away on College avenue, threw Mr. Stier out in a heap and cut up various didos that kept the Avenue intensely interested.

"Jim" Brown, the well known horseman, was nominated by President Cleveland for postmaster of Neenah.

IMMEDIATE DEVELOPMENT OF WATER POWERS URGED.

The 1919 annual report of Franklin K. Lane, Secretary of the Interior, urges the prompt development of water powers as a fuel conservation measure. In summing up, he says:

"It would seem to be our plain duty to discover how little coal we need to use. To do this we must dig out by grading it in terms of the energy of service to its power. We should save it, if for no better reason than that we may sell it to a coal-hungry world. We should develop water power as an inexhaustible substitute for coal and if necessary compel the co-ordination of all power plants which serve a common territory. New petroleum supplies have become a national necessity, so quickly have we adapted ourselves to this new fuel and so extravagantly have we given over ourselves to its adaptability. To save that we may use never be weak, to bring together into greater effectiveness all power possibilities—these would seem to be national duties, dictated by a large self-interest."

"I have gone only sufficiently far into this whole question to realize that it is as fundamental and of as deep public concern as the railroad question and that it is even more complex. No one, so far as I can learn, has mastered all of its various phases. In fact, there are few who know even one sector of the great battle front of power. A Foch is needed, one in whom would center a knowledge of all the activities and the inactivities of these three great industries, which in reality are but a single industry."

TURK CLAIMS TO BE 144.

The distinction claimed by John Shell, Tennessee, who is said to be 131, that he is the world's oldest man, is disputed by Maj. Road, R. N., late deputy naval store officer at Constantinople, who puts forward the claim of Zorro, a Turkish laborer employed by him in the Constantinople depot. The Major, now in London, says:

"This man claims to be 144, and, although I have not seen the records supporting his claim, it is reported that they exist in the Turkish military arsenal, Tophane quay, Constantinople. In the same working party I had this man's grandson's grandson—the latter a boy of 16."

"Zorro is a lifelong teetotaler and non-smoker, but admits excessive coffee drinking, which he is afraid will bring him to an early grave. He is the tallest and most finely built of a party of 149 men, and, although he is as clever in dodging work as a man of his long experience can be, he is able to do as much as the average man in his gang. He told me once that he liked working for the British, but unfortunately hadn't had an opportunity of doing so since the Crimean war."—Detroit Journal.

OPEN SEASON FOR PROFITEERS.

The Profiteering Act of England, which became a law on August 19, authorizes the board of trade to issue orders applying the new law to any article in common use by the public, or materials and equipment used in producing such articles.

The board of trade is proceeding by organizing a central committee which will concern itself with costs and profits of production and distribution, and local committees, which will hear complaints against retailers, investigate, dismiss, or declare the prices that would be fair. From the local committees there will be appeal to special tribunals.

Clearly, the board of trade will have some strenuous experiences. There is the farmer's wife in the North of England whose door-yard commands the only approach to a waterfall which all tourists long to see. Last year she collected toll at the rate of four cents a head. This year she asks six. When asked the reason, she replied, "Waterfalls is gone up."—The Nation's Business.

The United States Treasury statement of March 31, 1917, the last before we entered the war, showed a gross debt of \$1,282,044,346.28. Only \$1,023,357.20 of this bore interest. The treasury statement of April 30, 1919, shows a gross debt of \$24,820,358,550.05, of which \$24,577,956,717.10 bore interest.

London's water consumption a day is not less than 269,000,000 gallons, and an expert estimates that at least 4,000,000 gallons a day are absolutely wasted.

In 1860 there were 400,000 power spindles in Ireland, as compared with something under 1,000,000 today.

Health Talks

by WILLIAM BRADY M.D.

NOTED PHYSICIAN AND AUTHOR

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

Save the Wrapper—V.

Bathing Versus Good Health.

The more frequently and thoroughly you bathe with soap and water, the more clothing you need to keep you comfortable in cold weather. The more frequently and thoroughly you bathe with air the less clothing and artificial warmth you need for comfort. Every soap and water bath removes some of the natural protective, cleansing, softening skin oil and leaves the skin harder, rougher, less resistant to the dissipation of body heat. Every air bath stimulates the skin and necessarily the vaso-motor nervous system to perform their duties more efficiently, and while thus adding, it subtracts nothing from the physical well being.

Bathing is rendered more or less essential by the artificialities of civilized life, particularly by our very unhygienic use of clothing. Clothing prevents the air from maintaining natural body cleanliness; it also interferes with the removal of excretions from the skin. Were it not for clothing bathing would rarely be required.

Odors, save those natural characteristic odors of different species, are created by the retention of excretions in the clothing and on the skin.

I have explained in preceding talks how the natural skin oil keeps the skin soft, pliable, clean, beautiful, youthful and warm. Oil, of course, is a poor heat conductor. It is because of its oily character that wool is a better material than cotton for underwear. Cotton is too fast a heat conductor for any one except a very vigorous youth.

The majority of skin affections seen in young persons are those associated with excessive oiliness of the skin, such as comedones (blackheads), pimples (acne), pityriasis, seborrhea (oily dandruff), etc. In youth the oil glands are likely to be overactive for a time, hence more frequent bathing may be indulged in.

Toward middle age and after the majority of skin troubles are associated with excessive dryness of the skin. It is now that bathing begins to be most harmful. The older we grow the more rarely we should bathe. Itching, so annoying to many victims of excessive bathing, is one result of insufficient skin oil. But this is only a trifle. The greatest evil of bathing, if there is dryness of the skin rather than oiliness, is that it increases the heat-conductivity of the skin and makes it increasingly difficult for the victim to keep comfortably warm. How absurd it is for one to bathe every day or two and suffer with the cold, when by omitting the soap and water bath for a few weeks at a time the skin will accumulate enough skin oil to keep one fairly comfortable.

After a soap and water or plain water bath one with a dry skin or rough and itchy skin should carefully anoint the skin with some bland oil, such as liquid petrolatum, a teaspoonful being sufficient for the purpose.

QUESTIONS AND ANSWERS.

Apologetically Speaking.

I feel that I owe you an apology and a word of sincere thanks. My wife and sisters have always been Brady fans. They have quoted your precepts until I myself had about decided they were all "nuts."

Well, to be brief, I had been a heavy smoker for twelve years. I knew it was hurting me but I was unable to break away. Then one day the girls wrote for your little monograph "How to Play Ole Lady Nic." They had the silver solution prepared and informed me at dinner that I had smoked my last cigar. I willingly underwent the regime you laid down. It proved good. I have not smoked for one year. I have gained about fifteen pounds weight and am in better physical and mental health than for several years. NOW I'm a Brady fan—I take my rolls, my oxygen on the roof and everything, along with the girls. And when you visit our town we want to feed you and tell you how much we like you. (R. D. H.)

ANSWER—Huh, some men do just what the women folks tell 'em, don't they? It would be a great thing for the race if all men would do as their wives, sisters, mothers or sweethearts would have them do.

The Imaginary Breakdown.

About a year ago I had a nervous breakdown which left my nerves in bad condition. Please suggest something to strengthen the nerves. (W. J. M.)

ANSWER—"Nervous breakdown" is only an imaginary explanation for some organic disease. You had better not waste time seeking an alleged nerve tonic or nerve building food or medicine, for they are none of the kind. Take the bull by the horns and make up your mind that you will find out what is the matter. If your healer is gringing you along seriously with the "nervous breakdown" idea in lieu of an honest diagnosis, it would be well to consult a competent physician without further delay.

GROCERY SPECIALS

Friday and Saturday

INTER-NATION BODY TO GOVERN BOXING IS A POSSIBILITY

ONLY OBJECTION TO PLAN IS FRANCE'S DICTATORIAL ATTITUDE — ENGLAND IS WILLING

(By Henry L. Farrell.)
By United Press Leased Wire
New York—Hope of an international boxing organization to govern the sport has not been blasted. French authorities who have been working on a dream of an international boxing union since before the war, struck a snag when the United States refused to be represented at the congress to open today in Paris. America objected to the plan of organization which would put 75 per cent of the votes and control of the sport in the hands of countries which aggregate only five per cent of the world's boxing.

England did not withdraw but was only lukewarm in support, sharing the same opinion with the Yankees. The necessity of having America a member if the union is to be successful has been realized by the French.

Information of this attitude, was included in a cable received last yesterday by Major A. J. Drexel-Biddle, president of the army, navy and civilian board of boxing control from Lord Lonsdale, president of the British board of boxing control.

SPORTSMEN FEAST AND TALK SHOP AT ANNUAL GATHERING

T. A. GALLAGHER ELECTED PRESIDENT OF PROTECTIVE ASSOCIATION AT MEETING LAST NIGHT

T. A. Gallagher was elected president of the Outagamie County Fish and Game Protective Association at the annual meeting at the Briggs House Wednesday night. P. M. Conkey was chosen vice-president, and G. L. Chamberlain was re-elected secretary. Sixty-five members, including 10 Kaukauna men, attended the meeting and banquet.

Illness prevented the presence of William E. Barber of the state conservation commission, who was scheduled to deliver an address. Speeches were made by Mark S. Catlin, president of the state association and G. L. Chamberlain, secretary of the local organization.

That the state association should secure legislation providing that all the money derived from hunting licenses and other kindred sources be turned over to the state conservation commission for use in the proper channels, was the recommendation made by Attorney Mark S. Catlin in his address.

Mr. Catlin protested the identification of the department of forestry

lin, with admirable gravity, arose and nominated a man "who can get lost on three miles of sand land, with not a bush in sight, a man who has Kelley licked to death when it comes to eating, and a man who by his energy and ability has shown himself worthy of the position he holds, William Grapejuice Chamberlain."

A moment later on the recommendation of Mr. Chamberlain, it was decided to pay the secretary of the association 25 per cent of the fees. "I don't hesitate to speak out in meeting," said Gordon and his argument was so good that everybody yelled "aye."

KUBITZ IS ELECTED CAPTAIN OF COLLEGE FOOTBALL ELEVEN

STAR HALFBACK CHOSEN TO LEAD 1920 TEAM ON THE GRIDIRON—ALL STATE SELECTION

Lawrence College letter men of last year's football team at a meeting on Thursday evening chose Gerhard Kubitz, '23, Appleton, to captain the team of 1920. On the first ballot Normington received one vote, Wheeler one and Kubitz ten. Two letter men were absent.

"Kuby" as he is known by students and teammates alike, played on the Appleton High School team three years and was captain in his fourth year.

For the two years "Kuby" has played collegiate football he has been one of the leading players in the state. He played on the 1918 championship team and was all state half back. He was again selected in 1919 as the leading right half back in the state and given a place on all the mythical eleven picks. He has been one of the most consistent ground gainers for his team during his two years. He is considered by all football authorities one of the fastest and most elusive of the state football celebrities. In running ends, line plunging and getting under passes and punts, Kubitz' equal would be hard to find. He is particularly dangerous because of his ability to shake off tacklers.

Captain Kubitz is enthusiastic over the team's prospects for next year as only one letter man will be lost by graduation. "We are going to have a team next year filled with the spirit of co-operation and we are going to win our games," said "Kuby" after his election.

POSTPONE PRELIMINARY BOUTS AT THE Y. M. C. A.

Preliminary bouts in the Y. M. C. A. wrestling championship match scheduled for last evening were postponed until Saturday evening. The preliminaries will be run off until only four entries remain in each class, followed by the semi-final and final matches.

The opening bouts will be of seven minutes duration, one bout to decide the winner. Final matches will be ten minutes in length, a single bout to determine the winner either by a fall or decision for aggressiveness.

Arthur Wundrow, acting captain of the Lawrence college wrestling team, will referee the bouts.

SKAT ONKLEN TO JOURNEY TO MILWAUKEE ON SUNDAY

Local skat fans are trying hard to work up a big delegation to represent Appleton at the winter tournament of the Wisconsin Skat league to be held Sunday at Milwaukee. The delegation will leave here Sunday morning on the 7:30 o'clock train. Among those so far enrolled for the trip are Louis Keller, Herbert Kirchlenore, Joseph Schweitzer, Joseph Langenberg, Otto Zuehlke, Herman Foth and Ben McKinney. This year's tournament will be the biggest ever held and an appropriation of \$4,000 has been made for prizes.

VOCATIONAL SCHOOL BOYS PLAY BASKETBALL GAMES

Monday group defeated the Tuesday 6 to 5, and Thursday team won from the Wednesday five by a score of 5 to 4 in the basketball games played by Vocational school boys at the Y. M. C. A. last night.

The line-ups: Monday—Stammer, Grunst, Hageman, Koenke; Tuesday—DeWall, Schafelke, Turkow, Brockhaus; Wednesday—Whitefoot, Rectz, Hoffman, Delfosse, Brockhaus; Thursday—Frieders, Boese, Steiner, Konz, Schabo.

THREE VOLLEY BALL GAMES AT THE Y. M. C. A. TODAY

Three match volleyball games will be played at the Y. M. C. A. this afternoon. In the Red League, the Bolsheviks and Reds team clashed at 12:15 o'clock. The other two games will be between the Oaks and Poplars in the Tree league, and the Gelschow and Gelschow teams of the Business Men's league.

TWIN CITY CARDINALS DEFEAT GLOBE TROTTERS

Twin City Cards defeated Basco's Globe Trotters at Neenan armory Thursday night by a score of 34 to 20. The visitors were out-classed, and the home boys led thruout.

A crowd estimated at nearly 1,200 witnessed the game. Dancing followed. About one hundred Appleton fans attended.

EXPECT FIFTH VICTORY IN GAME WITH ANTIGO

Appleton highs go after the fifth straight victory of the season when Antigo plays Coach Vincent's five at the Y. M. C. A. gymnasium tonight. The biggest crowd of the season is expected.

As a precaution against the flu, no social will be held after the game at the high school, it has been announced.

LOCK FOR CLASSY WORK IN Y. M. C. A. WRESTLING BOUTS

LAWRENCE COLLEGE ENTRIES IN CITY CHAMPIONSHIP MEET WILL BE CUT DOWN

Real wrestling will be on the program of the City Y. M. C. A. championships to be held in the Y. M. C. A. gymnasium at eight o'clock Saturday evening. Nearly thirty entries have been received from the best amateur wrestlers in the city and the competition for the silver and bronze medals is becoming keener daily.

The Lawrence College entry was not as heavy as was expected due to the crippled condition of the squad. The 135 pound class should prove the most interesting of the evening as there are three men entered who are trying hard for this place on the team which wrestles the University of Wisconsin on February 21. George McCourt, school champion in 1918, is again out for the college team and he will compete in the "Y" championships against Arthur Carroll and Albert Schimmel, freshmen who have developed into first class wrestlers this year. Herman Berge of the "Y" team and Elmer Rehbein and Clifford Stanner are also entered in this class.

Daniel Courtney, captain of the "Y" wrestling team, is the favorite in the 125 pound class. Atkinson of the college team may compete in this class providing he is in shape for the meet after the hard trip to Iowa in which he was injured. A. H. Daglek who has been coached by Ed Arens, and Ray Bohon are also entered in this class. Stanley Lowe, Edward Pirner, and Elmer Kranzsch are entered in the 110 pound class and there should be some interesting scrapping among these midgets.

Clarence Turkow, D. Pierce, and Thomas Heiss are entered in the 118 pound class and Allison of the college team may also be entered although he has just recovered from a case of the flu. Reed Havens of the "Y" team and Ira Bemis are the only entries in the 145 pound class. This should prove to be a good bout. Cecil and Carlos Fuminger are again after each others' scalps in the 158 pound class. The other entries in this class are Willard Pace and Willis Wood.

The tournament starts promptly at eight o'clock. The men are allowed a pound and a half overweight and if they fail to make this weight, they will be put in another class. The preliminaries and semi-finals will be seven minutes long, one bout to decide the winner. The final bout will be ten minutes long, one bout to decide the winner. All bouts will be decided by a decision where no fall is secured. Bouts will be drawn for at a quarter to eight on Saturday evening and elimination bouts will be run until there are only two men in a class who will wrestle for the medals. Arthur Wundrow, acting captain of the Lawrence team, is to referee.

NO EXCUSE FOR STEADY INCREASES IN PRICES

By United Press Leased Wire
Chicago—Constant increases in prices of commodities are entirely unjustified by economic conditions. J. E. Carney, statistician for A. O. Slaughter and Company, bankers, said here today.

"The fundamental causes which were instrumental in creating high prices have in many instances ceased to exist," Carney said.

"Recent developments in fact unmistakably show a trend toward deflation of values."

"Take the latest announcement of an increase in the price of bread here

TONITE at the Armory the Popular American Legion Dance.

1.00 Per Couple. 50c Extra Lady. MUSIC BY SCHOLL'S ORCHESTRA. Punch will be served.

for example. During the past sixty days the best grades of bakers' flour have declined \$1.50 to \$2 a barrel while lard has declined eight to ten cents a pound. To attribute the advance to a shortage of wheat supplies is preposterous in view of the fact that the country, from present indications will carry over into the next crop a surplus of 150,000,000 bushels."

In normal times, Carney asserted, this would be reflected in the sale of flour at \$5 a barrel.

CAPTURE FREIGHT CAR THIEF AFTER GUN FIGHT

By United Press Leased Wire
Chicago—Frank Zabowski, 18, giving his home address as Cleveland, was captured in a gun battle between railroad detectives and alleged freight car thieves in the Erie yards here early today.

Detectives today opened fire on four men unloading a freight car. Three of the men escaped although one of them was struck by a detective's bullet. Zabowski surrendered.

Freight thefts from the Erie in the last two months have totaled \$50,000 officials said.

FOR SKIN TORTURES Zemo, the Clean, Antiseptic Liquid, Just What You Need. Is Not Greasy

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

The E. W. Ross Co., Cleveland, O.

MERCHANTS SHOULD HELP POLICE FIGHT BAD CHECK ARTISTS

QUICK NOTIFICATION OF POLICE OFFICIALS IN SUSPICIOUS CASES WILL BE BIG HELP

The recent spurt in check forging has led George T. Prim, Chief of Police, to urge increased caution in accepting or cashing checks for strangers.

In their desire to be aggressive and win more trade, merchants encourage rather than discourage the check manipulator, the chief states. Lack of investigation through fear of losing a customer is folly, for just as sure as a merchant follows this policy, he is liable to be "bit" any time. Always make sure of the person's identity, he warns, and if there appears to be anything suspicious about a transaction, a telephone call by some other clerk while the stranger is detained will bring an officer in two or three minutes, and the offender will be caught if he is one.

"I know a merchant in this city who cashes fully 400 checks a year for people about whom he knows nothing," Chief Prim remarked. "He says he expects to be caught once or twice, but the profit on the additional business gained through accommodation of this kind will more than repay any loss he sustains. This attitude is an injustice to the merchant who cannot afford to be swindled, and who is trying to co-operate with the police in landing these nefarious practitioners. Every merchant should make it his business to guard his interests and attempt to apprehend the forgers who are at large."

"Common sense," the officer further stated, "is often the means of detection. I have two checks on my desk now from a recent case, both of which are made out so obviously incorrect that any person examining them ought to suspect that they are the work of a novice, yet they were taken and we have yet to find the guilty man, whereas a little quick thinking would have placed this man behind the bars."

One of the most needed remedies to put to an end to forgery is a more drastic law dealing with such cases. In Wisconsin, cashing of bad checks is a misdemeanor, whereas the police state, it should be a felony. It is understood that the local bankers are working with the Wisconsin Bankers' association now on a law that will make it a heavily punishable offense to forge or cash a spurious check. More power given into the hands of the police in dealing with such crooks would be a distinct aid, the police stated, and the sooner it becomes a reality, the sooner these forgeries will end. Chief Prim, in giving his views on the situation, reiterated that the crime should be checked at its source, and that no merchant can be any too cautious.

KNIGHTS OF COLUMBUS TO BOWL IN MILWAUKEE

Knights of Columbus of Wisconsin are now in the midst of plans for a state-wide bowling tournament to be held in Milwaukee, March 6 to 23. Blanks are in the hands of George Schmidt and it is his plan to organize at least five or six teams so that Appleton will be well represented. The games will be rolled on the K. of C. alleys in Milwaukee.

WRIGHTSTOWN TO BATTLE INTERLAKES TOMORROW

Wrightstown city basketball team will play the Appleton Interlakes at the armory Saturday evening. The locals have been going great guns, and are confident of trimming the invaders.

TICKET SALE FOR MABEL GARRISON OPENS MONDAY

The ticket sale for the sixth number of the Appleton community Lecture and Artist Series will open at nine o'clock Monday morning at the Y. M. C. A., it was announced today.

Mabel Garrison, soprano of the Metropolitan Opera company, New York, is to appear in recital at Lawrence Memorial chapel February 10. The program promises to be one of the best presented thus far, and a large audience is expected.

Darling, did you put the mistletoe there for me, and me alone?

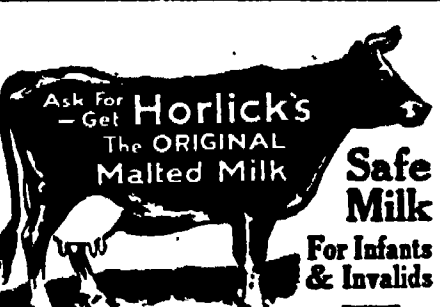

NEW SWEATERS FOR HIGH SCHOOL CAGE TEAM ARRIVE

Sweaters for the high school basketball team were received today, and will be worn for the first time in the Antigo game tonight at the Y. M. C. A. gymnasium. The sweaters are of an orange and blue color, inscribed with the letters A. H. S.

Reserved seats for the game have been set aside for perhaps the first time in school history. Girls of the school will have an opportunity to purchase 100 downstairs seats.

ST. PAUL RECREATION CLUB RACE IS TIGHT

Strenuous efforts will be made to pull the Sioux out of first place Monday evening in St. Paul Recreation Club volley tournament. The opening games at 7:45 o'clock will be between the Chippewas and the Onondas. At 8:50 o'clock, the Sioux and Menominees will have the floor.

Yours for Better Shoe Repairing.

Suffered with
Lame Back and
Swollen Limbs

Wild Rose, Wis.—"I have used Dr. Pierce's Favorite Prescription and I was so well pleased with it that I like to do all in my power to help other sufferers. I suffered with lame back and swollen limbs. I was so weak and dizzy that I couldn't take care of my baby and family. I suffered and worked till I finally took to my bed, and after spending \$90.00 with our home doctor, my husband saw Dr. Pierce's remedies advertised. He at once got me a bottle of both 'Favorite Prescription' and 'Golden Medical Discovery'. As my case was of long standing and I was in such bad condition, I used nine bottles of each, and then God, I am healthy and happy. I hope that all sufferers will do as I did—give the medicine a trial and be convinced. Anybody wanting to know more about my case, please write to me and send a stamped envelope and I will gladly answer." MRS. AUGUSTA WEGNER, Route 3, Box 24.

A Woman's Trouble

Hilldale, Mich.—"I am pleased to give a testimonial in regard to the value of Dr. Pierce's medicines. I was sick for about three years, the trouble was brought on through motherhood. I tried several different kinds of medicine but got no relief. Finally I took Dr. Pierce's Favorite Prescription and it cured me in six months so I have never had any return of the trouble. I also gave it to my daughter and it worked fine in her case. I have used Dr. Pierce's Golden Medical Discovery and Pleasant Pellets, too, and found them splendid as well. I can highly recommend all of Dr. Pierce's medicines; they have always done for me what they were recommended to do." MRS. EMMA GREEN, 33 McClellan Street.

THE BOX OF
BETTER
LIGHT
THE MAZDA

The Mazda blue, convenience carton on your store room shelf is "light insurance" against burned-out lamps.

But here's something more: With your Mazdas we furnish you free Mazda Light Service—we fit the proper lamp to every room in your home.

IF MOTHERS ONLY KNEW

During these days how many children are complaining of headache, feverishness, stomach troubles and irregular bowels. If mothers only knew what Mother Gray's Sweet Powders would do for their children, these powders would ever be without them. These powders are so easy and pleasant to take and so effective in their action that mothers who once use them always tell other mothers about them. Sold by druggists everywhere.

ASPIRIN

Introduced by "Bayer" to Physicians in 1900

You want genuine Aspirin—the Aspirin prescribed by physicians for nineteen years. The name "Bayer" means the true, world-famous Aspirin, proved safe by millions of people.

Each unbroken package of "Bayer Tablets of Aspirin" contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis and for Pain generally. Always say "Bayer" when buying Aspirin. Then look for the safety "Bayer Cross" on the package and on the tablets.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger packages.

Aspirin is a trade mark of Bayer Manufacturing Monocultural Chemicals of Salzig, Germany

Society

St. Agnes Guild Party
St. Agnes Guild of the All Saints Episcopal church will entertain at a card party for members of the parish and their friends at the home of Mrs. Dan Stansbury, College avenue, Tuesday afternoon. Games will begin at about three o'clock.

Because of the prevalence of illness in the city it is probable the proposed party for young people of the parish will be deferred for a few weeks.

J. T. Reeve Circle
A regular meeting of the J. T. Reeve Circle, Ladies of the G. A. R., will be held this evening at the South Main hall. Much business of importance is to be transacted.

Licensed in Menominee
A marriage license was issued at Menominee, Mich., yesterday to Allen F. Kaufman of Dale, and Miss Julia Peels of Fremont.

Weekly Card Social
The choir of Sacred Heart church will have charge of the weekly card social Sunday afternoon in the school hall. Games start at three o'clock and games will start at three o'clock, and skat, schafkopf and plumsack will be played.

Monthly Meeting
The Sacred Heart society will hold its monthly meeting at 1:30 o'clock Sunday afternoon at the room in the Sacred Heart school building.

Entertained at Dinner
Members of Kappa Alpha Theta were entertained at a 6 o'clock dinner last evening at the home of Mr. and Mrs. Gerald Galpin, Union street. About thirty guests were present. Among the out of town guests were the Misses Carrie Blair of Waupaca, Helen Lawson and Ruth Lachman of Neenah.

Sorority "Cozy"
Kappa Delta members will have a cozy Sunday afternoon at the sorority rooms.

Valentine Party
A committee consisting of Mrs. Jack Payne, Mrs. F. J. Martin and Miss Irene Albrecht met at the Y. M. C. A. yesterday to complete plans for the valentine party for dormitory men and their friends at the Y. M. C. A. February 12.

Leap Year Party
The Young Ladies' Society of St. Mary church will give an invitation leap year party at Columbia hall next Wednesday evening, personal.

Pythian Sisters Party
At the card party yesterday afternoon by the Pythian Sisters at the Knights of Pythias hall, first prize at bridge was awarded to Mrs. Theodore Belling and first prize at schafkopf to J. Alva Carter. Nine tables were in play.

Dance in Kimberly
A dancing party will be held tonight at Kimberly at the Kimberly Dining hall. It is expected that a number of Appleton people will attend.

K. C. Ladies Elect
Officers were elected yesterday afternoon at the meeting of the Knights of Columbus Ladies. Mrs. O. Wolter was elected president; Mrs. P. H. Ryan, vice president; Mrs. Wenzel Hagsman, secretary; Mrs. Charles Green, treasurer.

Business was followed by the usual weekly card party. First prize at schafkopf was awarded to Mrs. F. C. Wentink and the bridge prize was won by Mrs. Alice Baker. Refreshments were served.

Mrs. J. E. Woehler, the retiring secretary, surprised the women by serving a chicken lunch.

WOMAN'S CLUB WILL MEET
NEXT MONDAY EVENING

The Appleton Woman's club will meet at 7:30 o'clock Monday night at the Lawrence conservatory instead of Tuesday night as scheduled. The change was made because of the recital to be given Tuesday night by Miss Mabel Garrison as part of the Lecture and Artist series. The program for Monday's meeting is in charge of the Home Economics department of the club and will be announced later.

At the meeting of the board of directors of the club Thursday afternoon at the Y. M. C. A. various matters of importance were disposed of. It was decided to announce that all those who desire to join the Appleton Woman's club at the next meeting should telephone Miss Inez Gurnee, 512 Sampson street, and come prepared to pay the dues.

Seventy-five per cent of the land under cultivation in Egypt is held by persons owning less than two acres.

American Legion Dance
A dancing party will be given this evening at the armory by the Oney Johnson Post of the American Legion. Special decorations will be provided. Scholl's Jass orchestra of Neenah, will furnish music.

Little Chute Dance
A dance will be held Monday night at Lamer's hall Little Chute. Stecker's orchestra will furnish the music.

To Sing At Green Bay
Mrs. Eleanor Meltzer, Contralto, will sing at Green Bay next Sunday afternoon at the vespers service at the Union Congregational church. Mrs. LeBaron Austin will preside at the organ. A fine program has been arranged.

Columbus School Forum
The Columbus School Forum will hold a meeting at the school tonight. The business meeting will be followed by dancing and refreshments.

THE LADIES' AID OF THE GERMAN M. E. CHURCH WILL HAVE A SALE OF HOME-MADE BAKING AND SERVE WARM LUNCH SATURDAY AFTERNOON AT SCHUELER'S STORE.

IN N. Y. TO ORGANIZE
PENWOMEN

New York.—Mrs. Isaac Pearson, national president of the League of American Penwomen, plans to organize a New York section of the league. This section will make a point of helping the young writing women and having an oversight over students in Journalism, illustration and music.

URGE RELIEF FOR COAL
SITUATION IN NEW YORK

By United Press—Leased Wire
New York.—Charging the railroad administration with diverting to its own use coal bound for New York and plainly marked "for public service use" and explaining the alarming conditions faced by this city—with only a two day supply on hand—Public Service Commissioner Nixon has sent a telegram to President Wilson and the two New York senators, asking this practice be stopped.

Expenditures of the United States in 1919 were \$9,141,569.67. By 1918, they had mounted to \$21,812,256.508.29.

39 WAR VETERANS
ENROLL IN U. OF W.
EXTENSION COURSES

SHIMMY DANCES TO BE BARRED FROM AMERICAN LEGION DANCES—BONUS LAW EXPLAINED

Thirty-nine ex-service men are enrolled for courses under the extension division of Wisconsin University as a result of the meeting of the Oney Johnson post of the American Legion last evening.

George H. Landgraf, a member of the State Board of Education, took most of the time at the meeting to explain in full the working of the educational bonus law, especially as it applies to men who cannot go to college. His talk cleared up any doubt as to what the law was intended to convey. He also answered many questions asked by the men. Keen interest was manifested in his announcement that it was the intention of the board to establish evening classes in Appleton along any line desired, providing 15 members could be enrolled. He took the names of the men desiring classes together with the subjects in which they were interested, and will return here shortly to complete plans for starting as many classes as desired. He also announced that any ex-service men who desire information about the courses offered may secure it by applying to L. Hugo Keller, post adjutant.

The "shimmy" and kindred dances received a knockout blow at the hands of the post members. Those present went on record against such dances and they will be barred from any social event held by this organization. The question of organizing a women's auxiliary was deferred until the next regular meeting.

Major Lothar Graef was appointed chairman of a committee which will take in hand the distribution of honor or diplomas sent out by the French government to all mothers who lost sons in the war. This distribution has been left to the American Legion posts throughout the United States.

Of the 242,695 men in the army on Jan. 20 last, 192,363 were in the United States.

MAY FIX UNIFORM
WAGE SCALE IN THE
FOX RIVER VALLEY

CARPENTERS AND MASONS OF APPLETON AND GREEN BAY HAVE REQUESTED INCREASED PAY.

Masons are asking for \$1.25 an hour after March 1, and carpenters \$5 cents an hour after May 1. Last season masons were paid 80 cents an hour and carpenters 65 cents.

The Master Builders' association will hold a meeting Saturday, Feb. 14, at which the increase of wages will be considered. Masons and carpenters of Green Bay are also asking for an increase and the members of the Master Builders' association have written to local contractors to learn what has been done here relative to an advance.

Nothing has been heard about an increase at Oshkosh and Fond du Lac. The contractors of Appleton, Oshkosh, Fond du Lac and Green Bay are all members of the Fox River Valley Master Builders' association, which holds meetings at regular intervals in this city. It is probable that the wage scale for the four cities will be determined at the meeting on Feb. 14. Each city will be represented.

MINISTERS OF STATE
TO MEET IN MILWAUKEE

Protestant ministers of the state will hold a three day meeting at Milwaukee February 18 and 20. The conference has been called by the Inter-church World Movement.

Date for the meeting was set at a meeting of the executive committee of the Inter-church movement of the state at Milwaukee yesterday. Judson G. Rosebush and Dr. H. E. Peabody of this city attended the session.

Most of the Appleton ministers will attend the state meeting.

The total output of bituminous coal in the United States in 1919 was 458,063,000 net tons.

Velours are among the best-liked sports hats.

HEALTH FILMS TO BE
SHOWN IN SCHOOLS

STATE BOARD OF HEALTH WILL SEND PICTURES TO RURAL SCHOOLS IN OUTAGAMIE COUNTY

Outagamie county school children are to be given an opportunity to see one of the best educational movies that has visited Appleton this year, "The End of the Road," which attracted crowds to the Appleton theatre for three nights about two months ago.

The picture which was prepared by the war department commission in training camp activities is to be presented by the state board of health in at least four school buildings of the county during the week commencing Feb. 23. Miss Fern Chase of Oshkosh, the department's social worker, will be in charge of the film and will deliver a brief address at some of the schools.

The dates determined upon, which are subject to change are: Seymour, Monday evening, Feb. 23; Shiocton, Tuesday afternoon, Feb. 24; Black Creek, Tuesday evening, Feb. 24.

Bear Creek, Wednesday, Feb. 25; Kimberly, Thursday, Feb. 26.

The new educational movie, "How Life Begins," which is also being presented by the state board of health will be one of the attractions of the opening day of the teachers' institute to be held at the training school at Kaukauna on Feb. 27 and 28. The film gives with scientific accuracy the methods by which new plants and animals come into existence.

The production of petroleum in the entire world in 1918 amounted to 514,729,354 barrels of 42 gallons each.

Redingote lines are considered favorably.

MARKET OPENS HIGH BUT DECLINES LATER

CORN MARKET WEAKENED BY
ORDER FORBIDDING CHICAGO
GO FIRM TO PUR-
CHASE CORN

By United Press Leased Wire
Chicago.—After an early rise of 1/4c to 5/8c grain futures fell from 3/4c to 1 1/4c on the Chicago board of trade today.

Corn, Feb. opened late at \$1.38, unchanged; later losing 3/4c; March opened late 3/4c off at \$1.35 1/2, subsequently dropping 1c additional; May opened 1/4c up at \$1.32 1/2 later dropping 1 1/2c; July opened up 1/2c at \$1.25 1/2 but lost 1c before the close.

The chief factor in the weakening of the corn market was the order issued by the food administration restricting purchases of corn by a large Chicago grain firm for several days in an effort to stop alleged market juggling. The administration ordered also that the firm return grain cars at once to the western grain belts instead of reconsigning them to eastern customers as has been the practice.

Heavy selling by eastern shippers caused oats to decline after a strong opening. May oats opened 1/4c up at 78 1/2c later losing 1 1/2c. July oats opened 1/4c up at 72 1/2c dropping 1 1/2c subsequently.

Provisions were lower.

OBITUARY

MRS. ANTON SCHUH
Mrs. Anton Schuh, 87 years old, died quite suddenly shortly before eleven o'clock last night at the home of her daughter, Mrs. Anthony J. Riedl, at New London. The aged lady was stricken with illness about a week ago and apparently was recovering when the end came.

The decedent was born in Germany and came to this country in 1848. For several years she lived in Washington county and in 1869 moved to the town of Hortonville where she lived until about 25 years ago when she moved to Hortonville. She was spending the winter in New London.

Mrs. Schuh is survived by three daughters and six sons. They are Mrs. Susan Vanderheiden, La Crosse; Mrs. Eva Riedl, Appleton; Mrs. Anthony Riedl, New London; Matt and Jacob Schuh, Tigerton; Anthony and John Schuh, Hortonville; Peter and Richard Schuh, New London. She is also survived by 33 grand children and 12 great grand children.

Arrangements for the funeral have not been completed but burial will probably be in the Catholic cemetery at Hortonville.

GLADYS HEINRITZ
Gladys May, thirteen month old daughter of Mr. and Mrs. Chester Heinrich, 966 Dukee street, died this morning at the home. Death was caused by spinal meningitis. She is survived by her parents and one brother.

Funeral services will be held at 2:30 o'clock Saturday afternoon from the home. The Rev. Paul Nesper will be in charge.

MRS. OSWALD SCHNEIDER
Mrs. Oswald Schneider died at five o'clock this morning at her home at Greenville after a lingering illness with dropsy. The decedent was born in Switzerland November 6, 1863, and came to America in 1887. She lived in Ohio and Fremont Wis., before going to Greenville. The deceased is survived by a sister, Mrs. Fred Hess, Racine; a brother, Fred Bohren of Switzerland; husband and seven children, Emma, Walter, at home; Mrs. Cyrus Anderson, Appleton; Mrs. Frank Luebbers, Greenville; Oswald, Allenville, Ohio, and John Gerstwald, Milwaukee. Funeral services will be held at 10 o'clock Monday morning from the late home and from the church at Dale. The Rev. Mr. Dreenan will be in charge. Burial will be at Medina.

GOEDEN FUNERAL
Funeral services for Miss Helen Goeden will be held at nine o'clock Saturday morning from St. Joseph church. The body was taken to the home of Mrs. John Kiley, 1210 Emily street. Those who survive are her father, John Goeden, three sisters, Mrs. John Kiley, Mrs. Charles Danie, Oakland, Calif., and Mrs. Marcus Hill, Chicago; two brothers, John, Kenosha, and Edward, Gary, Ind.

FRENCH RECOGNIZE U. S. CLAIM TO SOLDIER DEAD

By United Press Leased Wire
Washington.—Announcement that the French government has recognized the validity of this government's claim of the right to remove its soldier dead was made today by Chairman Stephen G. Porter, of the house foreign affairs committee.

Assurance that bodies of American soldier dead returned to this country will in no case be consigned to private undertakers, except by direction of the next of kin, was given in an announcement by the war department.

Six hundred Boston students lost a chance to play "the fireman to the rescue" when Boston firemen failed to strike along with the police. The students had volunteered to fill their places and learned the operation of fire apparatus.

Hearing a woman's screams, a Chicago policeman and his wife interrupted their stroll to raid a saloon. They carried three assailants to the police station.

Emma D., a Cleveland hen, laid 355 eggs last year. Being a champion hen, each egg sells for \$3. After earning \$1005 in a year, her owner values her at \$500.

From 10 to 60 times as much opium is used in the United States as is used in Austria, Italy, Germany, Portugal, France or Holland.

The pack of Hawaiian pineapples is now 5,000,000 cases a year double that of 1914. Its value this year is \$22,500,000.

Roll call. All Aldermen present.
Reading minutes of previous meeting was, upon motion, dispensed with.
Committee on Finance reported that they had examined accounts from No. 1345 to 1458, inclusive, in the sum of \$17,145.25, and recommend that the same be allowed as charged.
Resolved, That the report be adopted, the accounts allowed, and the clerk instructed to draw orders for the several amounts.
On motion to adopt, the ayes and nays were called. All Aldermen voted aye, adopted and so declared.
Engineer presented tabulation of sewer bid on Second street sewer.
Resolved, That the bid of McMahon & Beaulieu being the best low bid, same be accepted and contract awarded.
On motion to adopt, the ayes and nays were called. All Aldermen voted aye, adopted and so declared.
Application of Frank Bartz, for a sewer digger's license, and Moonlight Dancing Club, for a dance license, were presented and upon motion, licenses were granted.
Report of the Chairman on School nurse and the City Nurse were received and ordered placed on file.
Resolved, That the Common Council of the city of Appleton, Outagamie county, does hereby consent to the conducting of boxing and sparring exhibitions in said city of Appleton, in accordance with Chapter 516 of the Wisconsin Statutes, provided that any club, corporation or association to whom license shall be issued by the State Athletic Commission therefor shall comply in all respects with the statutes of the state of Wisconsin and all lawful orders, rules and regulations of said State Athletic Commission.

Yes, Freddy, none of the other fellows need it.

PET CORNS

Few Drops of "Freezone," Then Lift Corn Right Off

A tiny bottle of "Freezone" costs so little at any drug store; apply a few drops upon any corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off with your fingers. Truly! No humbug!

ABOUT TOWN

REALITY TRANSFER—The only real estate transfer recorded at the office of register of deeds yesterday was that of one acre of land in Bowline, which Louis Kaufman sold to G. A. Zuehlke Mortgage Land company for a private consideration.

MOTOR FIRE ENGINE—Kimberly has placed an order for a motor fire engine, which is expected to arrive within the next ten days. Heretofore the village has had to depend upon a chemical engine for protection.

CHESS TOURNEY—Mundhenke lost the leadership to Mitchell in the chess tournament at the Y. M. C. A. as a result of his defeat Thursday at the hands of Deming. Mundhenke, Galpin and Deming are tied for second place, with 2 victories and one upset each.

SERVICE BADGE—Mrs. Karl Muench has just received a Red Cross service badge, one of the first to reach Appleton. Shortly after war with Germany was declared she was assigned to United States embarkation hospital No. 1 at Hoboken, where she met her husband who was among the first wounded to be sent home from overseas service. "American Red Cross Service" is the only lettering that appears on the badge.

MOVING—Moving everything on the farm is a task which Ralph Scheide of the town of Freedom is attempting at this time. He has purchased a new farm in the town of Grand Chute, and is holding a moving bee in which all the neighbors are participating. It took three days to move 15 loads of hay and corn stalks, and Mr. Scheide intends to move all his stock, feed, machinery and personal effects.

chased a new farm in the town of Grand Chute, and is holding a moving bee in which all the neighbors are participating. It took three days to move 15 loads of hay and corn stalks, and Mr. Scheide intends to move all his stock, feed, machinery and personal effects.

NEW PARCEL RULE—The old restriction limiting packages sent to Panama to 20 pounds has been removed by the postoffice department, according to the latest Postal Bulletin. From now on packages weighing up to 50 pounds may be sent to that country from the United States, but the limit of size to six feet six inches still stands.

FEDERAL OFFENSE—Thomas McGahn, who was called to Chicago early in the week on business pertaining to the checks forged by Joseph Fischer, a former employee of Thomas Vermeulen's bakery, returned yesterday. As the mails were used to defraud, he said that the worthless checks had been turned over to postoffice inspectors who are endeavoring to locate their author.

SPECIAL SERVICE—The special services at the Salvation army headquarters tonight will be in the nature of a concert with Envoys Walter

Jeffery in charge. Special services will also be held Saturday night at eight o'clock. The services Sunday will be held at 11 a. m., 3:15 p. m., and at eight o'clock in the evening.

FURNISH BAIL—Frank Bradford and Harry Spencer of the town of Maine charged with cutting logs on a neighbor's property and selling them, have been released from the county jail, each having furnished a bond for \$500. They pleaded not guilty and were incarcerated in the county jail pending their trial.

NO MEETING—Because of the small attendance, the annual election of Appleton Boat Club, scheduled for last evening, was postponed. It probably will be held on the first Thursday in March.

PATENTS—Three Appleton men have been awarded patents within the last few weeks. Willard Peerenboom has invented a show case. Earl J. Davis a railway-rail securing device and William H. Hackleman a gear cutting attachment.

BUTCHERS MEET—City manager form of government was discussed at the meeting of the Butchers' Union at Trades and Labor council hall on Thursday night. Cards were played after the meeting, and prizes at schafskopf were won by Martin Toonen, William Vorbeck and Albert Krause. Four tables were in play. A luncheon was served.

REALTY TRANSFERS—Among the real estate transfers recorded at the office of register of deeds this morning were: George Falck, et. ux., to T. A. Nickadem land in the city of Seymour, consideration, private; Sherman Edminster to F. J. Lontkavski land in Horton, consideration, private.

SCHOOLS CLOSED—The Hortonville high school was closed today on account of flu. Two high school teachers and one of the grade teachers are confined to their homes. The demonstration school in district No. 10, Grand Chute, which is attached to the Outagamie training school at Kaukauna has been closed this week as a matter of precaution.

Card Prize Winners
Mrs. J. Hollenbach won first prize at schafskopf at the card party at St. Joseph hall Wednesday evening. Second prize was awarded to Peter Rosch. The prize at dice was won by Mrs. H. W. Rossmeliss and the bridge prize went to J. B. Langenberg.

SIXTEEN NEW INFLUENZA CASES REPORTED TODAY
With seven cases reported Thursday and sixteen today, the flu shows itself to be on the gain. Two of today's cases are of pneumonia. Dr. H. E. Ellsworth, health officer, asks the public to discourage the holding of dances and other public events of a non-essential character so as to minimize the danger of spreading the disease. It is probable that a ban may be placed on gatherings here as in other cities, but voluntary compliance may save any such move.

Proper Deduction.
I have not drawn my principles from my prejudices, but from the nature of things.—Montesquieu.

Daily Thought.
Wise, cultivated, genial conversation is the last flower of civilization. And the best result which life has to offer us.—Emerson.

"Movies" in Africa.
Moving picture men have followed Stanley's footsteps through Africa.

VENUS AND ADONIS

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

APPLETON MAY LOSE YELLOWSTONE TRAIL

LOCAL PEOPLE MUST TAKE MORE INTEREST IN HIGHWAY IF IT IS TO BE RETAINED.

The question of whether Appleton is to continue on the Yellowstone trail, will be taken up at the state meeting at Atherton Hotel, Oshkosh, Feb. 11. Final action on the matter will be taken at the executive committee meeting at Milwaukee in March, although the committee will be governed largely by the decision made by the Oshkosh meeting.

"Appleton must raise a sum of \$225 annually for five years for the Yellowstone trail," John Conway stated this morning. "However, it will take more than money. More interest must be shown by local people to prevent a change."

Appleton will be entitled to ten delegates at the Oshkosh meeting, and the local men will make a strong fight to retain the trail.

A meeting is to be held this week here by the local men interested to arrange plans in this direction.

RECRUITING DRIVE IN CITY NEXT WEEK

MAKE DESPERATE EFFORT TO ENROLL SUFFICIENT NUMBER OF MEN IN NATIONAL GUARD

The week of February 8 to 14 has been designated as an intensive recruiting week for the Wisconsin National Guard. With the guard companies of the state almost up to the maximum strength, one more spirited drive will be made to enlist the men needed to bring the local organization up to the point where they may receive federal recognition and be entitled to pay.

A meeting of all enlisted men of Company A is called for eight o'clock Monday evening at the armory to map out a campaign that will send Appleton over the top. Supper will be served, followed by a smoker.

If Company A wants to go to Camp Douglas this summer the required number of men must be recruited during this drive, as any later enlistments will be too late to entitle them to federal recognition. A recruiting officer will be at the army evening night and the state adjutant-general's office will be kept informed of the progress of the campaign at the close of each day.

Wisdom of the Ancients.
There is but little in a woman's ad-vice; yet he that won't take it is not overwise.—Cervantes.

Daily Thought.
People who are nobly happy constitute the power, the beauty and the foundation of the state.—Jean Pinot.

Necessity of Labor.
Labor is necessary to excellence. This is an eternal truth, although vanity cannot be taught to believe or indolence to heed it.—John Randolph.

Unnoticed Pedestrianism.
A reasonably active man walks about 297,200 miles in 84 years, just walking about his house and place of business.

Fashion surely does flutter feather fans.

WOULD PAY HIGH PRICE TO KEEP TALK RECORD

"LANGUAGE FACTORY" IN LONDON EXPECTED TO BE OF AID TO BRITISH TRADERS

(Special to The Post)
London.—One hundred different languages are spoken in Assam; in Burmah, another hundred.

Such startling facts as these have inspired the Senate of the University of London to decide upon the establishment of a vast "language factory."

The institution will cost \$2,500,000. A staff of 70 experts will be employed to study the 1000 languages in use within the boundaries of the British empire. Close secrecy will be observed in the language factory, since the clue to many an obscure tongue would be of vast value to foreign traders. Germany, aided by a language factory, was beating England in her own territory before the war.

The factory will import savages from remote countries and make intensive study of their speech. For example, there are African tribesmen who converse in sounds no European has yet been able to imitate. They speak in clicks and squeaks, utterly unlike the words uttered by Europeans.

The equipment of the language factory will include a "kymograph." When an unintelligible language is spoken into this machine, it is reproduced by needlewaves on a blue-print which enables experts to translate the language into phonetic English.

The X-ray will also be employed. A Shilluk of the Upper Nile, for example, is induced to fill his mouth with powdered chalk and to recite a piece while an X-ray movie is taken of his head. This reveals the queer tongue twists of the Shilluk vocabulary.

Forty representatives of the British government are now on expeditions into far countries, getting material for the language factory.

Aside from the commercial purposes of the "Institute of Phonetics," as the factory is called, it will record for history many dialects rapidly becoming extinct. Even dead languages, it is hoped, will be resurrected.

No one knows exactly how people talked in the time of Shakespeare. We know that their speech was far different from our own, and no doubt a few centuries hence, the common talk of Englishmen and Americans would sound like Greek to the citizen of London and New York.

But there will be in the museum of the Institute of Phonetics, careful records of all kinds of English, from the grave pronunciation of professors to the outlandish clatter of Whitechapel.

Accordion pleats appear in suit skirts.

PALMER SAYS "HE IS IN THE HANDS OF HIS FRIENDS"

By United Press Staff Wire
Chicago.—Attorney General Palmer is "in the hands of his friends" as a presidential candidate. Following his announcement to this effect here, his Chicago friends were prepared today to launch an earnest campaign.

"There is plenty of time to talk politics after we polish off the profit-oil and get rid of undesirable aliens," Palmer said. "I'm not a good hat thrower but my friends are becoming more insistent every day. I am willing to see the republicans monopolize the opening field and leave the rest to my friends when the race is ripe."

Palmer before leaving for Kansas City reiterated his belief that the U. S. L. has been stemmed.

Mr. and Mrs. Stanley Bolin have returned from a visit at Chicago. Class pins and ring designs were decided upon at a meeting of the senior class at the high school Thursday afternoon. The pins and rings will be delivered in a short time.

Mr

PLACARDING RULES MUST PROVIDE FOR CARE OF THE SICK

STATE BOARD OF HEALTH RULES THAT THERE IS NO EX-
CUSE FOR DISREGARD-
ING RULES

(Special to Post-Crescent)

Madison, Wis.—With but one exception during the present epidemic of influenza there has been no serious objection to the enforcement of the state regulations regarding the placarding of homes where there are cases of influenza or la grippe, de-

clared the state board of health today.

"The general public fully appreciates the value of placarding homes so that no one will innocently be exposed to the infection by going to such a home and not knowing the nature of the ailment," said the state department.

In one city the health officer wired the state board that it was impossible to enforce the state regulations for the placarding of homes on the ground that such placarding interferes with the proper care of the sick. This complaint was based on a provision in the rules that no person shall be allowed to enter a home which has been placarded except the attending physician, nurse, members of the health board, and health officer, without the permission of the health officer, or one of his assistants.

"Where there are not a sufficient

number of registered or practical nurses to take care of the sick," says the state board, "or if for any other reason it is desirable to rely upon home service nursing, such nursing and care can and should be provided for under the existing rules. There is no excuse, in the opinion of the board, for denying to the general public the safeguards of placarding on the ground that such placarding will interfere with the proper care of the sick. Where relatives, friends, home service groups, or other persons nurse cases of influenza, such persons are recognized as nurses under the state rules and should be given a written permission from the local health officer to visit these homes so that those who are ill can receive proper care and attention.

"This situation is not a valid reason for disregarding the placarding provisions, and in any locality where the regulations for the reporting of cases of influenza or la grippe and the placarding of homes are disregarded the state board of health should be notified at once. If these regulations are not complied with, the state board will, if necessary, take charge of the local condition at the expense of such town, village or city or such town, village or city will be quarantined until the state regulations are complied with. The placarding provided for under the state regulations does not work a hardship in any case as the wage-earners can go about their work as usual, provided they do not frequent public places or come in contact in any way with the general public."

LOUIS M. MARTIN

SEYMOUR CHAMBER OF COMMERCE HAS MANY NEW MEMBERS

SUCCESSFUL EFFORT TO EN-
LARGE MEMBERSHIP OF
NEW ORGANIZATION
ENDS FRIDAY NIGHT

(Special to Post-Crescent)

Seymour.—The campaign for membership in the Chamber of Commerce which was conducted under the direction of Chairman H. F. Hall, of the Department of Organization Affairs on Friday, Jan. 30th, was a decided success although all those hoped to have been interested were not enrolled. The fact that one team was somewhat handicapped by having two doctors upon it, who were called from their labors to attend the afflicted, made it necessary to discontinue the drive earlier than was planned. This fact in no way spoiled the effects of the most bounteous four course banquet served at the Hotel Falk to those who took part in the campaign, even though it was paid for by the unfortunate losing team.

ELIHU ROOT

The result of the day's work was not made known until after all had eaten to his fill each with the keen anticipation of being pronounced the winner and none disturbed with the unpleasant realization that the spread was costing him his proportion of the loser's lot, a big five bone note.

While members of the contesting teams were enjoying coffee and smokes, Secretary Smith as toastmaster, gave a short talk on the importance of the new work upon which the modest celebration in which the gathering was participating, the beginning of a new era for the community.

Chairman Hall, in a few brief remarks, thanked the members of the committees for their unselfish efforts in the support of the work, after which Captain George Droege Jr. was asked to tell how he led his flying squadron to a victory which turned in twenty-two full paid memberships. Then Dr. R. C. Finkle was con-
doned and given an opportunity of telling why he didn't. But the doctor and his squad were game and enjoyed the banquet as much as tho they had been eating at the expense of one of the other teams instead of paying for the whole lavish affair themselves, and his customary wit and good humor pervaded the gathering and everyone enjoyed the doctor's explanation.

No, these are not photographs of Elihu Root before and after shaving. As a matter of fact, the former secretary of state still retains his mustache. The clean-shaven gentleman is Louis M. Martin, who, as chairman of the Judiciary Committee of the New York Legislature, is presiding over the trial of the five Socialist assemblymen at Albany.

Friends of Martin say that he prides himself upon his resemblance to the other and that he has added to it by wearing his hair with the characteristic Root bang. The assemblyman comes from Root's home town, Clinton, N. Y.

KIMBERLY PLANS TO ENTER BALL LEAGUE

HILL TOWN WILL BE REPRESENTED BY STRONG ORGANIZATION IN VALLEY BASEBALL CIRCUIT

The Kimberly Baseball association has just been organized and intends to enter the Fox River Valley Baseball League which will be formed at a meeting to be held at the Sherman house, Appleton, Sunday, Feb. 15. The officers are: President, W. H. Fleweger; secretary, Edward Franz; treasurer, Theodore Wydevan; manager, W. Behrendt.

The association has all the financial backing it needs to put a strong team in the field and has some of the best material to be found in this part of the state. It does not intend, however, to limit its team to home players. It has one of the best baseball parks in the Fox River valley and nearly every person in the village is a baseball fan.

The Fox River Valley League this year will consist of Fond du Lac, Oshkosh, Menasha, Appleton, Kimberly, Kaukauna, New London and Green Bay. Each city will send representatives to the meeting at the Sherman house. The Kimberly association which is the first in the valley to organize, will be represented by W. H. Fleweger, Theodore Wydevan and E. W. Behrendt.

After victor and vanquished had been heard from, Chairman F. L. Taylor opened the general remarks which went around the table in a universal expression of goodfellowship and confidence in the success of the undertakings of the Chamber of Commerce.

Those who took part in the campaign and enjoyed the banquet were: Department head F. F. Hall, Secretary E. C. Smith, Committee chairman George Droege, Jr., L. J. Kahnt, and Frank Lubinski, victors; Chairman Dr. R. C. Finkle, Dr. W. L. Boyden and Bert Dean, vanquished; Chairman F. L. Taylor, L. G. Becker and Emil Werbel.

Rhineland.—A warrant was issued last yesterday for Stanley Blomski for the murder of his 6-year-old son at the Blomski home in Sugar Camp. The child died last week and an investigation revealed that injuries due to a severe beating was the cause.

Testimony of the mother of the child yesterday was to the effect that the father had beaten the child many times and more than once had threatened to take its life. She also states that he had beaten the child when it was only three months old. Blomski admitted beating the child when but three months old but denied injuring it.

WARRANT ISSUED FOR FATHER: SON KILLED

FLU CARRIES AWAY MOTHER AND CHILD

Beloit, Wis.—Another tragedy in this city due to influenza was the death on Wednesday of Mrs. John Elsworth, quickly followed by that of her daughter, Evaline, 12 years old. There was a double funeral on Wednesday for Mr. and Mrs. Rupert, Greek influenza victims.

A homing pigeon bearing the name of Ben Bolt was announced as having established a new long distance flight record of 2,200 miles in the summer of 1915, from Norwalk, O., to Los Angeles, Cal. The bird made the trip in five days, nine hours and thirty-one minutes, arriving at Los Angeles, Aug. 30.

"REDS" WILL BE GOOD IF THEY ARE TAUGHT THE LAW

Head of New Loyalty Society Asserts That Reds Are Bad Because They Do Not Understand U. S. Rules

By United Press Leased Wire

Chicago—"Teach 'reds' the law and they'll be true Americans," Angus Hibbard, chairman of the Illinois executive committee of the newly organized United Americans said here today.

"Most 'reds' do not understand the laws of the United States," Hibbard said. "They need someone to teach them."

"We will have men of all languages go into the red sections, teach foreigners the law, and show them that the United States is a free country. We will show many people who think they know the voting power of the American citizen, just how much power they really have. A large majority of the foreign element don't know these facts. This is why they are easily led to turn bolshevik."

Plans for a larger organization of the United Americans were under way today, in order to accomplish their principles. The new organization, Hibbard said, is composed of "red blooded Americans" who will invade the "red" territories to teach the laws.

EARTH CITIZENS TO TALK TO PEOPLE OF OTHER WORLDS

SCIENTISTS ASSERT THAT MACHINES CAN BE BUILT TO SEND MESSAGES TO THE PLANETS

By James Henle (Special to Post-Crescent)

New York.—Have the inhabitants of Mars been attempting to communicate with us?

This is the question which for the past week has been agitating scientists on both sides of the ocean. Mysterious wireless signals have been received both in this country and in England. Where do they come from? Some scientists say Mars. Another asserts Venus. Others say they are the result of disturbances on the sun.

Nikola Tesla, whose researches have resulted in important contributions to every field of electrical science and who is especially well known as a wireless expert, does not believe that the signals recently received come from Mars. But he does assert that he himself has caught faint impulses over the wireless which cannot be accounted for except by the supposition that they come from Mars.

These sounds were merely the sequence of numbers, first one tap, then two taps, then three taps, the simplest idea that can be exchanged between persons without any medium of direct lingual communication. But the inventor is of the opinion that if we answered these we would finally be able to advance to more complex messages and that we could finally transmit photographs by wireless, and convey ideas through picture-writing.

Dr. Tesla has planned to answer these signals, and has designed a tower which would be able to deliver power at the rate of 1,000,000,000 horsepower and would, he thinks, be strong enough to repeat to Mars the one, two, three signal he received from that planet.

The inventor was asked about the mysterious wireless sounds recently heard.

"They are wholly of terrestrial origin, whatever with the phenomena I discovered in my investigations of geo-electric dynamics from 1899 to 1900" in Colorado. At that time I was operating under ideal conditions, there being no other wireless plant of any considerable power in existence besides my own, which developed a current of 1000 amperes in the antenna, sufficient to affect wireless-receiving instruments, as now employed, at any point in the globe.

"And yet, although I used an instrument of marvelous sensitiveness I barely could catch the faint impulses which came one, two, three."

* There were occasional misses, but the sequence of numbers was unmistakable. During the following year, while carefully reviewing the ground I had covered, I proved to my entire satisfaction that the disturbances could not have been produced on the earth or emanated from the sun, moon or Venus, and the most plausible conclusion led to the supposition that they had come from Mars.

"To most people the mere idea of flashing a signal over the immense gulf of fifty or a hundred million miles will naturally appear preposterous, but it is simply a feat of electrical engineering, apparently hazardous, but made perfectly feasible through inventions with which experts are familiar.

"In attacking the problem of communication with the planets we have two solid facts to build upon; first, a machine can readily be produced by use of sufficient power to convey the disturbances at a distance; and, second, our receiving instruments are sufficiently refined to record a signal from such a machine if it were situated on Mars. That the planets are inhabited is a foregone conclusion.

"I believe that the time has come for a serious attempt in that direction. We could begin by erecting a plant for transmitting signals conveying the knowledge of numbers, which would be the simplest truth that could be communicated to them and which would be answered immediately if the planet is populated by a race as civilized as ours. Once the first step is successfully carried out, it would then be very easy to install more elaborate apparatus for the transmission of pictures, by means of which the most intricate thoughts could be communicated."

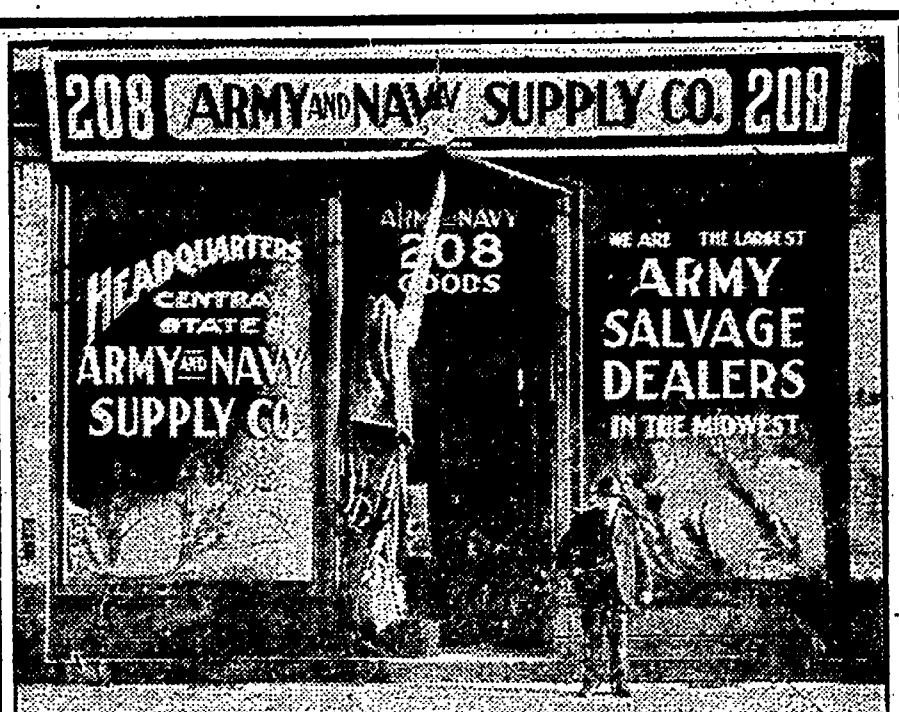

LACK OF REST worry, over-work or imperfect nourishment, all in a measure contribute to and are the beginnings of nervous prostration.

SCOTT'S EMULSION

is a decided help to those who are nervous, in that it provides an easily assimilated food that quickly builds up the general health by nourishing the whole body. Give less attention to worry; enjoy regular rest and sleep and take Scott's Emulsion regularly after meals. Scott's never fails to nourish and strengthen.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "S. & B. Process," made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed.

Don't Neglect that Cold!

Muco-Solvent is a safe and effective remedy

Never trifle with a cough or cold. It's Nature's warning that infection has seized on the mucous membrane that lines the throat, mouth and nose.

Disease germs are at work. They must be destroyed at once, for they multiply with amazing rapidity. Sometimes a healthy person can throw them off unaided, but think! of the needless risk you run. You've got to apply a remedy—quickly—for these symptoms are the forerunner of tonsillitis, quinsy, influenza, croup, whooping cough.

Muco-Solvent—a pure harmless vegetable compound—is the ideal germicide. It checks all development of germ life—dissolves the accumulated mucus—soothes and heals the inflamed parts. It can be swallowed or gargled, used as a spray or douche. Its antiseptic properties make it equally valuable in dressing cuts, wounds, burns, etc. 75c and \$1.50.

LEGAL NOTICE.

STATE OF WISCONSIN IN MUNICIPAL COURT FOR OUTAGAMIE COUNTY. Plaintiff, G. A. Zuelke, vs. D. J. Wittie and Marie J. Wittie, his wife; A. J. Peterson, Albert A. Rader, Reinhold Wenzel, Mary Bouscaren, A. H. White and E. L. White, his wife, Defendants.

By virtue of and pursuant to a judgment of foreclosure duly rendered in the above entitled action and entered in the office of the clerk of the Municipal Court in and for said county, on the 30th day of December A. D. 1918, the sheriff of said county was duly authorized and required to sell the mortgaged premises therein described to satisfy the amount due and costs of sale as provided by law.

NOW THEREFORE, I, V. R. Rader, sheriff of said county, do hereby give notice that pursuant to said judgment of foreclosure, I will sell at public auction to the highest and best bidder at my office in the court house in the city of Appleton, Outagamie county, Wisconsin, on the 1st day of March, A. D. 1920, at 10 o'clock in the forenoon of that day, the real estate and mortgaged premises directed by said judgment to be sold and therein described as follows: Lot 1 and the west twenty-one (21) feet of lot nine (9) block thirty-seven (37) Appleton Plat Second Ward, City of Appleton, Wisconsin, lying and being in the county of Outagamie and state of Wisconsin.

Dated Jan. 31st, A. D. 1920. V. R. Rader, Sheriff of Outagamie Co. Wis.

Albert H. Krummeyer, Attorney for plaintiff Jan. 16, 23, 30, Feb. 6, 13.

OWNERS OF WHISKEY MUST FILE INVENTORY

Milwaukee, Wis.—Owners of stocks of whiskey, other than liquor in private residences have until Feb. 10 in which to file inventories with the internal revenue department under an extension granted by Internal Commissioner Roper. To obtain the extension however, they must show that it was impossible to procure blanks on which to make the required reports.

The change was made when it became apparent that blanks could not be distributed to collectors in time to complete inventories within ten days from Jan. 16, the date on which the national prohibition amendment became effective.

Those filing subsequent to the original ten day period will be required to attach an affidavit stating that blanks could not be obtained earlier.

Stenographers in Hong Kong are charging \$7 gold per hour.

KICKS ON TOO MUCH LAW IN ALASKA

SEWARD.—There is too much law in Alaska, one newspaper intimates, and records the fact that nine days and six nights will be required by the circuit judge to complete his calendar on schedule.

2,400 NEW CORPORATIONS IN WISCONSIN IN 1919

(Special to Post-Crescent)

MADISON, Wis.—More than 2,400 new companies were incorporated in Wisconsin in 1919, according to figures just compiled in the office of the Secretary of State Meritt Hull, nearly 1,000 more than in any former year. During January of this year over 400 new incorporations were filed, indicating that 1920 will far surpass last year.

Articles filed Thursday include: Sheboygan Peat Fuel Co., Sheboygan, \$10,000. To manufacture and deal in peat and other fuel. Incorporators: John Van Der Vaart, A. T. Burkhart, Anton Starich.

J. B. Cudlip Co. of Oshkosh, \$10,000. To deal in motor vehicles and accessories and operate a garage. Incorporators: J. B. Cudlip, C. C. Konrad, Sophia Konrad.

Playnola Talking Machines, Inc., Milwaukee, \$50,000. To manufacture phonographs, etc. Incorporators: Dennis M. Sullivan, Jr., John Bauschek, Polley Zintek.

Horwitz & Sons Knitting Co., Milwaukee, \$10,000. To manufacture knit goods. Incorporators: Jesse Horwitz, Sam Horwitz, Hyman Horwitz.

Readfield Co-operative Co., Readfield, Waupaca county, \$30,000. To do general mercantile and shipping business on co-operative plan. Incorporators: Albert A. Schneider, Charles F. Schneider, Peter Spengler, Al S. Gorges, Adolph Neumann.

DuBois-Haevens & Co., Green Bay, amendment increasing capital from \$75,000 to \$100,000.

Clinton Telephone Co., Clinton, Rock county, amendment increasing capital from \$10,000 to \$50,000.

The American Molding Co., Milwaukee, forfeiture rescinded.

National Pickle & Canning Co., St. Louis, withdrawal from state.

STOMACH ON A STRIKE

"Pape's Diapiesin" puts Sour, Gassy, Acid Stomachs in order at once!

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just eat a tablet or two of Pape's Diapiesin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapiesin, which costs so little at drug stores.

"SYRUP" OF FIGS IS LAXATIVE FOR CHILD

LOOK AT TONGUE! REMOVE POISONS FROM STOMACH, LIVER AND BOWELS

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California." Advertisement

TEXAS RANGERS KEEP THE PEACE ALONG A DISPUTED BOUNDARY

BUT RIVAL CLAIMANTS ARE TOO BUSY WITH AFRICAN GOLF TO THINK OF SHEDDING BLOOD

By W. W. Ferguson
(Special to Post-Crescent)

Ranger Camp, Bridgetown, Tex.—Eleven small black automobiles, their curtains drawn, bounced over the frozen road of the Red River Valley at Bridgetown, and emptied their loads in front of a row of newly erected tents on the river bank.

"I'd 'a' give money to 'a' made that trip on a bronk," one of the passengers remarked, as he emerged from the car, carelessly holding his gun. It was a Winchester, in a neat case of carved leather. Cartridges gleamed from his belt and, like his companions, he carried holstered pistols.

Others of the party smiled. They had learned that the modern Texas Ranger has learned to rely on other stunts than his trusty cayuse.

The party were Rangers, under the direct leadership of Adj. Gen. W. D. Cope. They had come all the way from the Rio Grande for the same duty that they have been engaged in in the past, to repel invaders.

Only the invaders on the Red River were not Mexicans. They were Oklahomans, who, fired by the discovery of oil on the brink of the Red River, had crossed to the south bank, long considered the boundary between the states, and planted their banner, a sign declaring that the south bank of the Red River stream was in the state of Oklahoma.

"We're here to keep the two sets of claimants from shooting at each other while the courts decide their disputes," General Cope announced, as his Rangers made themselves at home.

And his two companies of Rangers, 15 men, a sergeant, and a captain to the company, looked capable.

All of them are tall, well built and chafe under the enforced inactivity of waiting for the deputy sheriff of Wichita-co to come and serve the injunction issued by Judge George Calhoun of the Fifty-third District Court of Texas Rangers do not serve civil papers. Judge Calhoun has issued an injunction similar to the one issued by Judge Frank Matthews of Tillman-co, Oklahoma, across the river.

Both injunctions give possession of the disputed property to the state officers of their respective states. Both injunctions put the property in the hands of a receiver, who is to operate it until the courts definitely establish claims.

But the Rangers do not worry about injunctions. One fashioned a checker board, and labeled one side "Texas" and the other "Oklahoma." Then, using cartridges as checkers, the hardened gentlemen who are the terror of the border, whiled away a pleasant afternoon. A crap game among oil men in an adjoining tent didn't intrigue them in the least.

They even listened sympathetically while a newspaper man explained the game of chess on the checker board, using pennies as pawns, nickels as rooks, dimes as knights, quarters as bishops and old and new half dollars as king and queen. Heads represented one side and tails the other, of course. One grizzled old veteran who admitted "playing" the game back in 1887 or 1888, skinned the smart correspondent three straight.

Oh, yes, they're Rangers, all right. They wear big white five-gallon hats, fancy sewed on "inlaid" boots, and flannel shirts a-plenty. They carry an average of three guns apiece, which they use expertly.

But—they rode up to the Red River in five-passenger cars; several of them wear rubber heels on their cowboy boots; and one at least is mighty nifty with his queen's knight's gambit.

So they may settle that oil land fuss without bloodshed, after all.

ST. PAUL MAN HAS GAINED 20 POUNDS

Torpen Was So Run Down He Was Ready to Give Up—Feels Fine Now.

"I have gained twenty pounds in weight since taking Tanlac and not in years have I enjoyed such fine health generally," was the statement made the other day by John Terrien, who lives at 624 St. Peter street, St. Paul, Minn.

"It was six years ago that my health broke down," continued Mr. Terrien, "and since that time I have suffered until I was nearly a wreck. My appetite was so poor that for breakfast several years I took for breakfast a glass of milk and a cup of hot water, and I could eat little or nothing at other meals. The pains in my stomach were so severe they almost drew me double and the only way I could get relief was to bend down over a chair. I would bloat up with gas and would have a heavy, distressing feeling that continued for hours. I was troubled a great deal with heartburn and many a night I was in such agony that I had to get up and walk the floor. I was so nervous I would jump at the least unexpected noise and finally I quit drinking tea and coffee altogether as I thought that was partly to blame for my extreme nervousness, but it did no good. I had to continually be taking laxatives as I was badly constipated. My sleep was so broken and broken and I was so weak and run down I can hardly understand how I held up so long under the strain.

"I started reading about Tanlac in the papers and finally I made up my mind to give it a trial. Well, sir, the very first bottle went right after my troubles and the way I improved was remarkable. And to-day, my recovery has been so complete that it seems almost too good to be true. My digestion was never better in all my life and I don't have to worry over what I can eat because everything agrees with me perfectly. The gas and pains have all disappeared and I am no longer bothered with heartburn. My nerves are steady and normal and I sleep like a log every night. I get up of mornings ready for a hearty breakfast and go off to my work feeling fine. I am no longer constipated; in fact, I am never bothered in any way whatever now. Just the other day I weighed and I tipped the scales at one hundred and forty pounds, just twenty pounds heavier than I was two months ago."

Tanlac is sold in Appleton by John E. Voigh, in Black Creek by Arthur A. Gerl, in South Kaukauna by Kaukauna Drug Co., in Kaukauna by Henry G. Brauer, in Seymour by S. G. McCord, and in Hortonville by Edwin G. Gitter.

BARNES SEES LOWER PRICES FOR BREAD

FEDERAL WHEAT DIRECTOR WAINES JOBBERS AND MILLERS NOT TO SPECULATE IN WHEAT

By George B. Waters
(Special to Post-Crescent)

Washington, D. C.—Will America see 15-cent loaves of bread? Will the rising prices of wheat in the big markets hit the average consumer?

On the contrary, bread is likely to come down. The average consumer should be immune from these abnormal prices being paid for wheat, if he will use sense in buying.

Anyone who tries to corner the wheat market, anyone who tries to get rich by speculation in wheat and flour, is liable to lose heavily. Julius H. Barnes, federal wheat director has even gone so far as to warn jobbers and millers not to speculate in wheat with the approaching dissolution of the U. S. Grain Corporation June 1.

"The 42,000 licensees should realize that the withdrawal of such a market and price influence as the U. S. Grain Corporation cannot be made without introducing large hazards to the wheat and flour handler," said Barnes. "World influences of great potentiality in price-making exist today."

"There is no guide to point the way to commercial security. Individual judgment must solve unusual problems, soon to be faced. We can only warn of the play of world-wide factors of unprecedented potentially, and submit information, as accurate as humanly possible, on which business policies must construct."

"Exports for the last six months have been 33,000,000 less than last year."

"Flour production in the United States for six months exceeded last year's production by 12,000,000 barrels, while exports of flour have been 1,000,000 barrels less."

"Flour stocks visible are very large, 15,000,000 barrels against 8,000,000 last year."

"New crop prospects will shortly be a decided price influence. Much emphasis is laid on our fall-sown acreage of 39,000,000 acres, as against 30,000,000 a year ago. It is well to remember that America's second largest winter wheat yield 685,000,000, came from 37,000,000 acres sown. Also that twice in our history the yield from spring sowings alone exceeded 350,000,000 bushels."

"Import and export embargo restrictions are now eliminated, and Canada and Argentina are already making sales, attracted by our prices now

SWEET TOOTH GETS 14 YEAR OLD BOY IN BAD WITH THE POLICE

YOUNGSTER FINDS NEW WAY OF SATISFYING HIS CRAVING FOR GOOD THINGS TO EAT

Even a kid can divert his bright mentality to wicked usage as some of the world's crooks do, but like all bad men, they eventually cultivate the intimate acquaintance of the cop.

A boy of 14 whose family is thrifty and highly respected gave the local police a bit of concern for a few days, but was apprehended yesterday morning. He had a sweet tooth, abominably sweet, and nothing his parents could feed him was sweet enough. His mania started out how he could satisfy his craving, and eight Appleton grocers stand ready to tell how cleverly he did it. Despite the fact that the family always bought for cash, the lad walked into one store after another on successive days and ordered a bill of groceries, to the amount of four or five dollars. The top of the list would contain flour, coffee, butter and other household essentials, but toward the bottom would come cakes of chocolate, candy, peaches, nuts, and other goodies. Mother was always in a hurry for the last-named articles, so he would condescendingly take these along, and the remainder could be sent C. O. D. The search for the house number usually ended with the discovery of a vacant lot or a fictitious name.

A good description of the lad was obtained by the police and Detective Duval arrested him Thursday morning at one of the public schools. Because of his tender age and the fact that his parents are of high moral character and able to look after the boy, no charge was preferred against him, but Judge Spencer reprimanded him severely. The parents paid the grocers in full for their loss.

Grocers who were victims commented upon the intelligence with which he placed orders, for he was right up on trade marks, quantities and other information necessary in ruling above the guaranteed level.

"Dealers are carrying 437,000,000 bushels of wheat, against 299,000,000 a year ago. Seriously ponder this condition. After June 1, next, the grain corporation authority to buy wheat at a guaranteed price expires, and thereafter the security of that basis is withdrawn."

COMPETITION FORCES INDUSTRIAL SHAKE UP

British Industrial Leaders Find That Time Is Money and That Production Must Be Speeded Up

By Milton Bromner
(Special to Post-Crescent)

London—England is beginning to awaken to the realization—That time is money.

That the high cost of labor is cutting deep into its profits.

That, in order to meet increased wages, efficiency engineers must hold sway and reorganize English business and industrial methods.

England always has wasted its man power. It always has permitted two, three and sometimes four men to do the same work that is done by one man in America.

When wages were low, England could afford to do this and still meet commercial competition. But now, with wages continually on the increase, she realizes that modern methods must be employed to cut down costs.

It is a familiar sight to see four men unloading a wagon load of coal in a London street. There are no chutes and no coal holes. Englishmen are beginning to think about installing both.

Many large office buildings are ordering, just as if his mother had reached him on her household needs. At one place he ordered half a pound of milk chocolate and liked it so well that he came right back for another cake.

Stiff Joints
Sore Muscles
Limber Up Quickly Under the Soothing, Penetrating Application of Hamlin's Wizard Oil

In cases of rheumatism and lame back it penetrates quickly, drives out soreness, and limbers up stiff, aching joints and muscles.

Wizard Oil is an absolutely reliable, antiseptic application for cuts, burns, bites, and stings. Sprains and bruises heal readily under its soothing, penetrating qualities.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips pleasant little pink pills, 30 cents Guaranteed.

without central heating systems. England knows labor can, and must be saved by installing modern heating plants.

Many plants are without adequate telephone systems. Time and manpower is wasted by sending messengers to distant parts of buildings after persons wanted on the phone.

These wasteful practices and others no longer set well with the Englishman who finds it necessary from time to time to grant wage increases. Manufacturers, as well as merchants, are beginning to realize that time means money and that system will save both.

A Voice From Sioux City, Iowa, says

PE-RU-NA

Worth Its Weight In Gold

You cannot mistake the words of Mr. W. W. Northrup, of 1908 Fourth Street, Sioux City, Iowa. He is enthusiastic about his present health and the merits of PE-RU-NA and wants everyone to know it. Here is a recent letter from him:

"PE-RU-NA is worth its weight in gold and then some. I used to think it only a woman's remedy but have changed my mind. I had a cough, especially in the morning. After using half a bottle of PE-RU-NA was much better. I would cough up chunks of phlegm and mucus, my eyes itched and bothered me. Judging from the symptoms given in your almanac it was catarrh. My stomach is in much better condition since using your medicine."

"Use this testimonial, if you wish. Don't hesitate to advertise the merits of PE-RU-NA." (Signed) W. W. NORTHROP.

There are thousands just like Mr. Northrup, skeptical at first but convinced by a trial of PE-RU-NA.

DON'T BE AN UNBELIEVER.

If your trouble is of a catarrhal nature, try PE-RU-NA, then tell your friends. It is fine after an attack of grip or Spanish Flu.

Sold Everywhere Tablets or Liquid FOR CATARRH AND CATARRHAL CONDITIONS

CONDEMN FOND DU LAC JAIL STILL IN USE

Fond du Lac, Wis.—The city of Fond du Lac would, of course, be responsible for any injury to any person confined in the police station, or for any disease or injury to the health of any person confined therein; this is the opinion of the state board of control as expressed in a letter from the board signed by M. J. Tappin, secretary.

Secretary Tappin points out that Fond du Lac is the first city in the state that has ignored an order condemning its police station. Condemned Dec. 18, 1915, the station was not used for confining prisoners for two years, but thereafter was used for this purpose.

The death of Police Officer Orvin Schneider, influenza victim, has also raised the question as to whether the city would not be liable to injury or illness of city employees who must frequent the place in the performance of their duties.

TRIAL OF EX-RACINE OFFICIAL IS DELAYED

Racine—Trial of Frank Foster, former superintendent of the Racine detention home, on charges preferred by pretty Leone Crane, 17 year old inmate, was adjourned one week because Foster is ill with influenza. Miss Crane was sick last week, when the trial was to have taken place.

LA CROSSE COUPLE DEPART FOR ORIENT

La Crosse—Lieut. Col. F. H. Fowler and wife of this city left for Honolulu and China, Japan and India to be gone a year. Col. Fowler was with the One Hundred Twenty-eighth infantry in France. In order to make the long postponed journey to the orient, he was excused from serving as foreman of the United States grand jury which is investigating the high cost of living here.

HARD TIMES DANCE AT GAINOR'S HALL, MACKVILLE, FEB. 10. STECKER'S ORCHESTRA.

MADISON TEACHERS GRANTED MORE PAY

Madison—Madison school teachers who signed contracts for the 1924-1925 term will receive higher salaries. The Madison board of education, after a long debate behind closed doors on Tuesday night, voted to increase wages paid to teachers. Supt. M. S. Davidson was instructed to assure teachers that the salary schedules would be revised, the amount of increase to be fixed at the next meeting of the board.
